

## ONE DISASTER AVERTS ANOTHER

### COLLAPSE OF QUEBEC BRIDGE SAVES ONE IN U.S.A.

#### Chairman Parent Comments on Findings of Royal Commis- sion of Investigation.

Ottawa, May 5.—In an interview yesterday in reference to some of the findings of the royal commission which investigated the collapse of the Quebec bridge, Mr. Parent, president of the Quebec Bridge Company, and chairman of the National Transcontinental Railway commission, says he was informed on good authority that in spite of the utmost attention to every detail of plans and specifications, a similar great disaster to one of the largest bridges now being erected in the United States was prevented by the experience gained by the scientific world from the collapse of the Quebec bridge.

In the case of such a large undertaking as the Quebec bridge, in the absence of any board of engineers to apply to in Canada for preparing plans and specifications, and in view of the undesirability of confining bidders to a single system, which in the end might not suit, and would almost certainly have led to alterations afterwards, Mr. Parent said the company thought it best to invite tenderers to furnish their own ideas and plans to obtain the best results of the competition and on a broader basis than could be obtained from any individual designer. In that respect the company secured the services of Mr. Cooper of New York, who was considered the best man in the United States for making a selection.

At all events, Mr. Parent said, there could be no visible connection between such remote actions on the company's part, and the disaster which occurred ten years afterwards, and which was solely due to scientific errors, the commission of which would likely have been unavoidable under any other bidding conditions, since it is now admitted that professional knowledge at large is still deficient on the experimental strength of large bridges.

#### NEW YORK BONDS TAKEN UP. Bankers Regard Sale as Reflecting Easier Conditions in Money Market.

New York, May 5.—Easement of the monetary situation was sharply reflected yesterday in the sale of \$18,000,000 worth of municipal revenue bonds bearing interest at 3 1/2 per cent, and extending for a term of six months. The bonds were sold to several banking firms. During the winter revenue bonds were sold by Comptroller Metz bearing interest at 6 per cent. The marked lowering of interest rate, bankers stated, evidences increasing confidence in securities.

The revenue bonds are issued in anticipation of the taxes paid in October, and these bonds will be redeemed the first week in November.

### WHITE MEN EMPLOYED ON ALBERNI END

#### Clearing Work on E. & N. Ex- tension Near Terminus is Nearing Completion.

(Special to the Times.)  
Alberni, May 5.—Messrs. Carmichael and Mulholland moved their camp of workmen engaged on the right of way clearing on Saturday last to a point near the terminus of the line below New Alberni, and hope to have their contract for the last ten miles of the right-of-way completed in about three weeks. Another week will, it is estimated, see the completion of all the sub-contracts taken from them, mostly in small pieces of from one to three acres.

Only white men have been employed on this end of the road, and fair wages have been made, resulting in a large increase of business to the local merchants which would have been hardly appreciable had the work been entrusted to Orientals, as was done on the east coast sections.

The general public is now anxiously awaiting action from the railway authorities in the direction of arranging for the grading of the western section of the road. When tenders are called for and a contract awarded a fresh stimulus will be given to the trade and prosperity of the district.

#### KING EDWARD HOME AGAIN.

London, May 5.—King Edward and Queen Alexandra returned to London yesterday afternoon from their Scandinavian tour.

#### BOYCOTTING CASE IN WINNIPEG.

Winnipeg, May 5.—In the assize court yesterday Mr. Justice Mathers heard the reopening of the case of *Cotter vs. Osborne*, involving some fine law points and \$25,000. This is an action for an injunction and damages amounting to \$25,000 for picketing, conspiracy and boycotting by the master plumbers against the journeymen plumbers, gas and steam fitters' helpers local union No. 52, in July 1906.

### ORCHARD PINING TO DIE.

Life in Idaho Penitentiary is Worse Than Death.

(Special to the Times.)

Portland, May 5.—A special from Boise yesterday says that Harry Orchard is renewing his request to be allowed to die. Orchard says life in Idaho penitentiary is worse than death because the prisoners shun him and he is completely isolated from human companionship. The Idaho board of pardons meets to-day to consider Orchard's case and unless the board turns down Orchard's own request he will be hanged on May 15th.

#### 'FRISCO HAS BIG BLAZE.

Buildings Erected Since Earthquake Catastrophe Are Destroyed.

San Francisco, Cal., May 5.—Fire last night destroyed property in the block bounded by Market, Geary and Kearny streets, and Grant avenue, valued at \$200,000. It started in the kitchen of the Mentone restaurant.

The buildings were one-story wooden structures, built since the big fire.

## WINS ENGAGEMENT IN KHYBER PASS

### BRITISH COMMANDER DISPERSES TRIBESMEN

#### Prompt Action Results in Mohmands Being Driven Across Frontier.

Simla, British India, May 5.—The promptitude shown by Major-General Sir James Willcocks, commander of the British forces, in rushing his troops to the scene of the disturbances has deprived the Afghan raid of present danger. He attacked the raiders on the hill west of Landkotal, in the Khyber Pass, and drove them back over the frontier, scattering them in various directions.

Finding no support from the other tribes, the raiders are dwindling away. According to advices received here, the Mohmand and other tribes are quiet and engaged in harvesting.

#### "AN UNEXPECTED PINK TEA."

Showman Arrested For Non-Payment of Hotel Bills in Calgary.

(Special to the Times.)  
Winnipeg, May 5.—Capt. Addington Lear, who put on the show "An Unexpected Pink Tea" in Vancouver and Calgary, and with the assistance of his wife, Madame Addington Lear, working up a large patronage, but through getting ahead of the receipts has been arrested here and taken to Calgary on the charge of the non-payment of his hotel bills.

#### BUTCHERY OF PAWN BROKER.

Portland Police Say University Graduate is Author of Crime.

(Special to the Times.)  
Portland, May 5.—The police to-day named Edward H. Martin, a graduate of Columbia university and another big eastern school, as the probable murderer of Nathan Wolff, butchered last week. Martin is an employee in the city engineer's office, and has been missing since Sunday.

### INDIAN AGITATORS PREACH REVOLUTION

#### Arrest of Bomb Conspirators Discloses Organized Cam- paign Against British.

Calcutta, May 5.—An examination of thirty prisoners arrested yesterday confirms the gravity of the bomb conspiracy. Some of these in the hands of the police deny complicity in the affair, while others made startling admissions regarding the intentions of the organization against public officials and of actual attempts at the use of bombs, which, however, proved unsuccessful.

One man said he travelled all over India in connection with the movement, which he described as a great revolutionary campaign against the government.

The prisoners were remanded.

#### ROOSTER KILLS BABY.

Chattanooga, Tenn., May 5.—Max Crockett, fifteen months old, died at Lewisburg yesterday from wounds inflicted by a rooster. The child fell in the yard and the rooster attacked him, sinking his spurs repeatedly into the child's head.

#### OPERATORS' INCREASED PAY.

Moncton, N. B., May 5.—As a result of an interview with Hon. Mr. Graham and Mr. Butler in Ottawa, the inter-colonial telegraph operators have been granted an increase of pay of ten per cent.

#### HAROLD TURNBULL DEAD.

Winnipeg, May 5.—Harold Turnbull, the well known barrister, is dead.

## GREAT COMPLIMENT TO DOMINION

### H. M. S. INDOMITABLE WILL BRING PRINCE TO QUEBEC

#### World's Fastest Cruiser Com- ing, Accompanied by Four Ships of the Line.

Montreal, May 5.—A special London cable says that in selecting the new cruiser Indomitable to take the Prince of Wales to Quebec, the admiralty is carrying out the King's express desire to pay the highest possible compliment. The Indomitable is unique in the world's fleets—unique in defensive qualities, gun power and speed. She will be called the lightfooted sister of the Dreadnought.

With a speed of 25 knots, she has twice the effective gun fire of foreign battleships built before the Dreadnought, has a displacement of 17,300 tons, length 530 feet and draught 26 feet. She has eight 8-inch and sixteen 4-inch guns, which are operated with the ease of rifles, so absolutely are they under control. The ship cost \$5,000,000.

The prince's escort includes four battleships of the Duncan class, and two protected cruisers, one of which will be the Arrogant. It will be altogether the finest squadron ever seen in North American waters, and far exceeding anything any foreign power could provide.

It was a sister ship of the Arrogant, named the Gladiator, which the St. Paul sent to her grave in the snowstorm in the Solent on Saturday week. Prince's Pleasure in Trip.

London, May 4.—The Prince of Wales, presiding at the dinner of the Colonial institute, in the course of a long speech, referred with pleasurable anticipation to his coming visit to Canada, and expressed regret that time did not permit of his extending the visit beyond Quebec.

### BIG MAJORITY FOR LICENSING BILL

#### Measure Introduced by British Government Passes Second Reading.

London, May 5.—The House of Commons last night passed the second reading of the licensing bill by a majority of 248, and referred the measure to a committee of the whole House.

Augustus Birrell, chief secretary for Ireland, announced last night that the resignation of Sir Antony Patrick Macdonnell, under secretary to the Lord Lieutenant of Ireland, will take effect in July.

#### NOTED WEDDING IN RUSSIA.

St. Petersburg, May 5.—Mlle. Stolypin, daughter of the Russian premier, was married here yesterday afternoon to Lieut. Bock, the Russian naval attaché at Berlin. The wedding ceremony was attended by members of the cabinet and of the diplomatic corps and representatives of high society in St. Petersburg.

#### VICTIM OF CHLORAL.

Toronto, May 5.—William B. Bentley, a barrister, took an overdose of chloral at the Electro-Therapeutic institute on Carleton street, and died in five minutes.

#### ONTARIO ELECTIONS.

Toronto, May 5.—Writs for the provincial elections will be issued on Monday, May 11th.

### ANARCHIST THREATS TO BE MADE FELONY

#### Bill That Will Come Before Illi- nois Legislature is of Dra- matic Character.

Chicago, May 5.—The extermination of anarchy is the scope of a bill drawn by Assistant Corporation Counsel Houle, which will be introduced in the legislature to-day by representative Alfred P. Keeney.

It provides that any person who shall publicly advocate by spoken or written word the killing of any person, whether in Illinois, or in a foreign country, shall be deemed guilty of a felony and shall, upon conviction, be sentenced to the penitentiary.

#### CONSERVATIVE NOMINEE.

Newmarket, Ont., May 5.—T. Herbert Lennox, M. P. E., was nominated by the North York Conservatives for the legislature.

#### DAMAGE BY FLOOD.

Ottawa, May 5.—The Ottawa river has risen twelve inches since Saturday, and is causing trouble, floating bathhouse floors and walks along the river.

### RACE RIOT. Poles and Italians Engage in Deadly Duel at Wilkesbarre.

Wilkesbarre, Pa., May 5.—Poles and Italians engaged in a bloody riot at Hudson, ten miles from here, yesterday, two Poles being fatally wounded, two others badly hurt, while many were injured and were carried away by their compatriots.

There has been bad blood between the Poles and Italians for some time owing to the fact that a number of Poles took the places of striking Italians at nearby coal mines. To-day the Italians laid in ambush for a party of the Poles and attacked them with stilettoes.

### Japs Emigrate To South America

(Special to the Times.)  
Vancouver, May 5.—The largest single shipment of emigrants ever made from Japan occurred last month when 891 were sent from the Northern Prefecture to Yokohama en route by steamer for Peru.

### MAN WHO SAW LIGHT OF THREE CENTURIES

#### True to Memory of Sweetheart Who Was Tortured to Death.

Traverse City, Mich., May 4.—Uncle Dan Whipple, aged 109 years, died last night from hemorrhage of the brain. Yesterday he seemed as well as usual and took a long walk in the fields. Mr. Whipple was born in Cattaraugus county, New York, on March 1, 1799. He was a member of General Fremont's exploring party on the historic trip across the Rockies. He was long a companion of Kilt Carson and later saw service through the Civil war in an Iowa regiment.

He never married, being true to the memory of a sweetheart who was tortured to death by Indians before his eyes when he was a young man in the west.

#### SUDDEN DEATH.

Montreal, May 5.—Berge Ropher, 35 years old, while eating supper with friends at his home on Yonge street on Sunday night, fell ill and died within a few minutes of heart failure.

#### SCHWAB IN QUEBEC.

Quebec, May 5.—Charles M. Schwab, the steel magnate, and party, have arrived here from Boston and will spend a few days in the city, sight-seeing, after which they will return to New York.

### TOWN IS FIRED BY LIGHTNING FLAMES

#### Antipolo, in Philippines, De- stroyed—Hundreds of People Homeless.

Manila, May 4.—The town of Antipolo, in the province of Morong, has been practically destroyed by fire. Four hundred houses were burned and hundreds of people are homeless. The famous shrine was saved. The fire was caused by lightning. Antipolo is a town of 3,500 inhabitants.

#### INCENDIARISM.

While Alberta Storekeeper is Absent His Property Burns to the Ground.

Edmonton, May 5.—There is a strong suspicion that incendiaryism was committed in Bruderheim in the early morning hours of May 2nd. August Lentz, who conducts a general store in that town, is in the city in connection with a fire which completely destroyed his store last Saturday morning. He came to the headquarters of the R. N. W. M. P. at Edmonton to lay information against some suspected parties, but was informed that this would have to be done at Fort Saskatchewan. He expects to go to the fort and swear out a warrant against the suspected parties.

Lentz was in Edmonton last Friday, and on Saturday night he found his store in ashes. After hearing all the circumstances connected with the affair he decided to lay information against certain suspected parties on the charges of burning the store.

#### DROWNING ACCIDENT.

Fenelon Falls, Ont., May 5.—Joseph Torrance was drowned while assisting in putting logs in the slide. His cant-hook becoming fast, he held it too long and was thrown into the water and swept over the falls. The body has not yet been recovered.

#### NORTH ESSEX LIBERALS.

Windsor, Ont., May 5.—North Essex Liberals renominated Speaker Sutherland for the Commons and tendered the provincial nomination to J. A. Tremblay, who, it is understood, will accept.

## TRAGIC SUICIDE IN FREDERICTON

### LLEWELLING ENDS LIFE IN LEGISLATIVE HOUSE

#### The Deputy Surveyor-General Leaves Letter for Premier Hazen.

Fredricton, N. B., May 5.—W. B. Flewelling, deputy surveyor-general of New Brunswick, committed suicide by shooting himself in the mouth and breast in the basement of the departmental building yesterday afternoon.

No cause is known for the act, as Mr. Flewelling was apparently a man of quiet habits. The audit of the provincial accounts was to have been begun to-day, and Mr. Flewelling, late yesterday, asked the auditor, Mr. Dunlop, to postpone it for a day because of the absence of the chief game commissioner of this city.

The suicide left a letter addressed to Premier Hazen, which was handed to that gentleman in the legislature last night. He opened it immediately and hastily left the House and conferred with Governor Tweedie and the cabinet. None of the gentlemen would reveal the contents of the letter. Mr. Flewelling had been an employee of the government for over thirty years, and was a son of the late Hon. W. P. Flewelling.

#### SURGEONS IN CONVENTION.

Richmond, Va., May 5.—The American Surgical Association met in annual convention here yesterday. Eighty-five of the leading surgeons in America were in attendance when the president, Wm. H. Carmalt, of New Haven, Conn., opened the session. To-day other eminent surgeons are expected, including Doctors Cauerbruch, of Germany, and Chipault, of France, who, with Mr. Moynihan, Leeds, a distinguished English surgeon, have been invited to read papers.

### SEVENTEEN-YEAR-OLD BOY AVENGES HIS FATHER

#### Divorce Suit Leads to Chapter of Tragedy in Kentucky Town.

Jackson, Ky., May 5.—Edward Callaghan was fatally wounded by his brother-in-law, John Spicer, at Callaghan's store on Long's creek, and Spicer was in turn shot and killed by Callaghan's seventeen-year-old son as the result of a quarrel between Callaghan and Spicer yesterday.

Spicer came into the store and he and Callaghan quarreled. Spicer attacked Callaghan and nearly cut off his arm. Callaghan's son Wilmot, came in during the cutting and shot Spicer through the heart. Spicer is a brother of Mrs. Callaghan, who is now separated from her husband. Callaghan brought a suit for divorce several months ago and this is supposed to have been the cause of the trouble.

#### WARFARE DURING ELECTION.

Rival Camps in Corsica Armed With Shotguns Pepper Each Other—Many Killed.

Ajaccio, Corsica, May 5.—The excitement in the elections at the village of Lozzi on Sunday developed into a pitched battle. The rival parties ranged themselves into two camps. They are now armed with shotguns and keep up a frequent fire. The number of victims is unknown, but it is believed that many have been killed, or wounded. Troops have been dispatched from here to the scene of the disturbance.

### MILITIA FOR QUEBEC TERCENTENARY

#### Contingent of 170, Officers and Men, Will Represent Western Districts.

Ottawa, May 5.—About 170 officers and men will constitute the composite regiment for the Quebec tercentenary celebration from the western military districts, with headquarters at Winnipeg, Calgary and Victoria respectively. Owing to the great cost of transportation, etc., the militia department found it inadvisable to bring a larger contingent. From the Winnipeg district the force will be about 110 men, while from the other two districts about thirty men each will come.

#### SOUTH WELLINGTON TORIES.

Guelph, Ont., May 4.—South Wellington Conservatives renominated Joseph P. Downey, M. P. P., for the legislature.

#### POST OFFICE RETURNS.

Montreal, May 5.—The revenue of the Montreal post office last month totalled \$57,173, as compared with \$74,188 a year ago, an increase of \$12,985.

### ALLAN LINER'S RECORD.

S. S. Virginian Makes Run From Quebec to Montreal in 8 Hours 45 Minutes.

Montreal, May 5.—Favored by high water and a clear day, the Allan liner Virginian, from Liverpool, yesterday made the fastest run ever made by an ocean steamer between Quebec and Montreal, the time being 8 hours 45 minutes. On board the Virginian there were 80 saloon, 450 second and 800 third class passengers. Most of the latter were immigrants who proceeded to Winnipeg and the northwest.

#### QUEBEC ELECTIONS.

Likely to Take Place on Same Day as Those in Ontario.

Montreal, May 5.—It was learned last night on good authority that a meeting of the provincial cabinet is to be held in Quebec to-day, and that at this meeting it will be decided to dissolve the legislature, the general elections to take place on June 8th, the same day as the provincial election in Ontario.

## DEPICTS MASS ON CHICAGO STAGE

### AUDIENCE IS ASTONISHED AT DARING INNOVATION

#### Father Vaughan, the Author, Defends Action, Calling it "Living Painting."

Chicago, May 5.—Gasps of astonishment came from an audience composed largely of Roman Catholics when the curtain was lifted on the second scene of the Rev. T. J. Vaughan's play "A Woman of the West," produced in the Bush Temple theatre last night. The interior of a Catholic church showing the altar and an actor in the vestment of a priest, performing the ceremony of the mass, were presented, and continued for almost three minutes. The presentation stirred the large number of Catholic priests and church members in the audience into an excited discussion and church action is expected.

Father Vaughan said he had not consulted with his superiors in reference to depicting the mass upon the stage. "The celebration of mass is stopped before the consecration of the host. It is simply a picture," he said, "of living painting and should offend no one any more than the reproduction of the same thing in water-colors or oils."

#### ELEVATOR SYSTEM IN WEST.

No Definite Plan Yet Acquired to by Provinces.

Regina, May 5.—The conference between the premiers of the three prairie provinces was concluded yesterday afternoon and broke up without the premiers arriving at any definite plan for taking over the elevator system of the west.

Owing to some misunderstanding the grain growers did not send representatives to place the scheme before the premiers, but George Langley, who was one of the grain delegates to Ottawa, attended the conference and laid the plan before them. It is probable that a further session will be held at some later date.

### TRYING TO PROVE THAT THAW IS NOW SANE

#### Slayer of Stanford White is Removed to Dutchess County Jail.

Poughkeepsie, May 4.—As a result of yesterday's proceedings to secure release of Harry K. Thaw from Matteawan insane asylum, it was decided that Thaw will not be returned, but shall be confined in the Dutchess County jail. Thaw expressed pleasure at the decision.

#### CRUELTY TO ANIMALS.

G. T. R. Fined for Not Providing Water to Cattle on Forty-Hour Trip.

Toronto, May 5.—Mr. Kingsford, the deputy police magistrate of Toronto, decided yesterday that the G. T. R. were guilty of cruelty to animals in not providing a carload of cattle with food and water on a recent forty-hour trip from Warrenton to Toronto. He fined the company \$100 and costs, remarking that it was the extreme penalty allowed under the statute, and it was only possible for him to enforce such a penalty as the law allowed.

#### HIS MISSION HERE.

Rev. Dr. Chown to Conduct Local Option Campaign in B. C.

Toronto, May 5.—Rev. Dr. Chown, secretary of Moral Reform of the Methodist church, left for Vancouver yesterday afternoon. He will investigate the building of a factory in that city for the purpose of manufacturing of opium. It is alleged that the Chinese who are said to be backing the venture would run the product into China. While in British Columbia Dr. Chown will try to secure the passage of a local option law.

## AGED INMATES FIGHT FOR HOME

### FORMER MANAGER IS THROWN FROM BUILDING

#### Chicago Bethesda Residents Win Another Round in Strug- gle for Existence.

Chicago, May 5.—Eighteen decrepit residents of the Bethesda Home for the aged, their averages being 71 years, driven by fear that they would be forced from their home, attacked Frank F. Henning, former manager of the bankrupt institution, and after beating him, threw him bodily from the building last evening, threatening vengeance if he ever returned.

The eighteen residents, the majority of whom are women, said Henning agreed to furnish them a home for life for a consideration of \$550. In many cases this \$550 represented the entire savings of the man or woman who was admitted. The home was forced into bankruptcy several months ago, and since that time has been supported entirely by public subscriptions. Henning was forced from the management of the place when one of the inmates committed suicide and others threatened to do the same.

#### DILLON BEFORE COURT.

Murderer of Constable Shea Appears Dressed in Immaculate Fashion.

Montreal, May 5.—John Dillon, the book agent who shot and killed Constable Shea and wounded Chief Detective Carpenter and Constable Foucault and who was himself shot by the police, was brought before Police Magistrate Lafontaine yesterday and remanded till Thursday. Dillon was dressed in the height of fashion, in checkered trousers, patent leather shoes and silk hat. He was charged with the murder of Constable Shea and attempting to murder Chief Carpenter and Constable Foucault on April 6th last in 34 Mance street.

#### MONTREAL'S FUTURE.

Major Stephens Convinced That Any Expenditure is Justifiable for Port Purposes.

Montreal, May 5.—Major Stephens, chairman of the Montreal Harbor Commission, has returned from Great Britain and the continent, and after visiting the leading ports of the old world, returns to the St. Lawrence firmly convinced that the situation of this port fully justifies any expenditure that will make Montreal the greatest port of entry on the continent. The projected development, he says, will call for a depth of forty feet from Montreal to the sea. It is now 31 feet.

### JEWS OBJECT IS TO INHABIT PALESTINE

#### English Court of Chancery Re- fuses to Restrict Opera- tions of Trust.

London, May 5.—A petition of the Jewish Colonial Trust asking power from the court to restrict its operations to Palestine was dismissed yesterday by the Court of Chancery. The trust has a capital of £2,000,000 which has been subscribed with the object of promoting the welfare of the Jewish race in all parts of the world.

The managers of the trust who were supported by a considerable section of the stockholders contended that to colonize Palestine and neighboring territory was the great ideal of Zionism and the only object worth obtaining. Israel Zangwill was among those who bitterly opposed the proposed scheme of limitation.

#### RECORD FIELD PROPHESED.

Manitoba's Provincial Treasurer Says Present Crop Prospects Indicate Best Year in History.

Winnipeg, May 5.—Hon. J. Agnew, provincial treasurer, has just returned from a trip in the country, where he had a chance to see how the crops looked.

"They are better now than they have been for some years at this season," said Mr. Agnew. "And they are going along under the best of weather conditions just at present. The grain is well out of the ground and looking healthy. From present prospects we will have this year the best yield we have ever had."

#### TORONTO HOLD-UPS.

Police Believe They Have Man Responsible in Custody.

Toronto, May 5.—By the arrest yesterday of Alexander Rose the police have, believe they have in their hands the man responsible for holdups, with violence, in Toronto recently. Rose was arrested on the charge of assaulting Miss Ethel Stinch in a fruit store on Yonge street on Friday night. Mrs. Max Finlay, of Yonge street, who was held up in her store and assaulted on April 31st says Rose answers the description of the miscreant. Rose denies all charges.

**GIRL'S BROTHER ATTACKS ACCUSED**  
**Walkem Beaten for His Laugh-ter When Blanche Bond Fainted.**

(Special to the Times).

Vancouver, May 5.—Just before the trial of George A. Walkem this morning, on a charge of procuring an operation on Blanche Bond, the girl's brother, Richard Bond, met Walkem in a corridor of the court house. He jumped on Walkem and smashed him several times in the face before anyone could interfere. Bond's particular reason for the attack was Walkem's alleged laughter last Saturday when the girl fell fainting from the witness stand. The police later in the day kept a

careful watch over Walkem and young Bond for fear the latter would do serious bodily harm to the man whom he blames in his sister's case. Miss Bond was on the stand nearly all the morning and again fainted twice. She is very weak. Numerous letters were produced for the girl kept all the time. There is a big bundle of them and the exhibits put in have reached the number of twenty-eight. Joe Martin, appearing for Walkem, objected time and again, and he said Deputy Attorney General McLean had several lively times.

"I suppose nothing I can say can hurry this case," said Mr. Martin finally in desperation.

"No, I am running this case, and not you," sharply replied Mr. McLean.

Doctors Proctor and McKechnie this morning gave technical testimony regarding the girl's condition as a result of the examinations yesterday. Mr. Martin's cross-examination was very severe. The trial will probably last all day to-morrow.

**THUNDER STORM CAUSE OF RUIN AND DEATH**

**Two Drown When Illinois Train is Wrecked on Washed Out Bridge.**

St. Louis, Mo., May 5.—A thunder storm of unusual severity accompanied by wind of almost tornado velocity swept over this vicinity to-day, causing much damage and indirectly causing loss of life.

A bridge on the Louisville and Nashville railway near Belleville, Ill., was washed out and caused the wreck of a freight train. The conductor and a brakeman were caught under the engine and drowned. The train was piled up in a mass in Schoenlaub river which was swollen into a torrent.

**FOUR EXPLOSION VICTIMS.**

Pottsville, Pa., May 5.—Four men are reported to have been killed at the Draper colliery of Philadelphia and the Reading Coal & Iron Co., by an explosion.

**OUTBREAK IN PERU**

**OF SMALL ACCOUNT**  
**Incipient Revolution Said to Be Condemned by Public Opinion.**

New York, May 5.—Eduardo Higginson, the Peruvian consul general at New York, has received cable advices from his government stating that the reported revolutionary outbreak in Lima has no importance whatever and is condemned by public opinion.

Mr. Higginson said to-day: "The trouble is isolated in character and has no weight or political significance. It was caused by the approach of the presidential elections in Peru, at which time local disturbances are likely to occur."

"Latest advices received by cable to-day are to the effect that the leader, Durand, with a few followers, was being pursued by the government troops. His capture is likely at any moment."

**HINDU INFLUX IS EFFECTUALLY STOPPED**

**Mackenzie King Will Report on His Conference With Imperial Authorities.**

(Special to the Times).

Ottawa, May 5.—The Mackenzie King report of the result of his conference with the Imperial government relative to the question of immigration into Canada from India will probably be presented to parliament to-morrow along with a copy of the order in council passed this week, which, in conjunction with regulations already passed, practically makes it impossible for any further influx of Hindus into British Columbia.

The solution of the whole problem is now regarded by the government as having been most satisfactorily settled.

**FLAMES THREATEN TOWN.**

Colton, Ohio, May 5.—Fire threatens the destruction of the business district. The police station, the town hall and the fire department hall have already been destroyed. A heavy wind is blowing. Colton is in Jackson county, and has about 1,800 of a population.

**AT QUEBEC TRICENTENARY.**

**GHASTLY DISCOVERY.**

Finding of Four Mutilated Bodies in Ashes of Indiana Home.

La Porte, Ind., May 5.—Four mutilated bodies were found to-day buried in the backyard of the Gunness home in which Mrs. Gunness and her children were burned to death recently. The bodies prove that the was murder committed in each case.

**Liberals Will Increase Majority**

(Special to the Times).

Quebec, May 5.—The legislature dissolved to-day. Polling will take place on June 8th, the same date as those of the Ontario. The Gouin government is certain to be sustained by an even greater majority than it is at present.

**LOBSTERS ARE TO BE SET FREE IN WATER**

**Another Step to Be Taken in the Experiment on the West Coast.**

E. G. Taylor, Dominion government fisheries inspector, left this afternoon for Sooko on the steamer Georgia to transfer the lobster recently brought from Nova Scotia from the crates in which they were placed on their arrival to open water where they will be left to forage for themselves. In making the transfer, all "buried" lobsters, that is lobsters bearing spawns, will be retained in the crates in order that the progress of their breeding may be observed. The others will be let loose in Cooper cove and at other points sufficiently protected for the purpose, including Beecher bay.

Once the lobsters are set free they will soon find a home that suits them for they are great travellers, being known to have journeyed 200 miles. They are, therefore, likely to be found at almost any place on the West Coast within the next year or so.

The lobsters have done well since being placed in the crates in Cooper cove and there is every prospect of the experiment proving a complete success.

**PERSONAL.**

Smith Curtis, ex-M. P. for the city from a trip to the interior where he visited Vernon, Roseland and Okeana. Mr. Curtis says that the interior is looking in fairly good shape, and although the financial stringency has been felt there to some extent, the country nevertheless is in a prosperous condition; a feeling of confidence is found in all the places visited. Mr. Curtis paid a visit to the coal properties in Vernon, which are situated about seven miles west of Okeana lake, and there found good prospects, and an exposure of coal for a width of seven to eight feet on the surface. He is staying at the King Edward hotel.

Gardner Thompson, of Montreal, resident manager for Canada of the London & Liverpool & Globe Insurance Company, Mrs. Thompson, is a guest at the Empress. Thompson is on his annual tour of inspection of the various agencies of the company throughout the Dominion, the local agency being under the superintendency of Ald. Richard Hall.

Mr. Pollock, who for some time has been living in the Comox valley, has returned to the city. He says that Comox is making progress. The farmers will improve their breeds of milk cows, he believes, as a result of the milk tests which are being conducted in connection with the Dominion department of agriculture.

W. S. Graham, R. W. and T. A. Purves, medical students, who are here to take medical examinations next week, are registered at the Balmoral.

Rev. Hermon Carson, pastor of the Congregational church, is visiting in Port Townsend and Seattle. He will be absent until the end of this week.

A. T. Goward, local manager of the B. C. Electric Company, was a passenger on the Princess Royal this morning for Vancouver.

S. G. Edwards, of the local customs staff, was a passenger for Vancouver this morning on his way to Ottawa.

J. E. Smart, secretary of the Victoria Agricultural Society, is in Vancouver and will return to the city to-morrow.

Dr. Tolmie, Dominion live stock commissioner, left this morning for Vancouver on departmental business.

Dr. Eassey, of Moosonee, Ont., and F. O. Pelletier, of Lowell, Mass., are registered at the Dominion.

H. S. Griggs and family and C. Stephens registered yesterday at the Empress.

James J. Fenwick, of Honolulu, is spending a vacation in Victoria and is at the Driad.

C. E. Macdonald, J. J. Lowe and A. L. McConnell are at the King Edward from Vancouver.

Henry and Mrs. Blenheim, of Seattle, are staying at the King Edward.

J. C. McCaig is at the Empress from Montreal.

**WAS BOUND OVER TO KEEP THE PEACE**

**Resident at Colwood Took Law Into His Own Hands.**

A. J. Seafie was charged yesterday afternoon with an assault on a Mr. Thompson at Colwood, and was bound over to keep the peace by Magistrate Jay, who heard the case as brought by the provincial police department in the police court.

Special Officer Ashton gave evidence that he had been called to Colwood on Saturday last on a report that a man had been badly beaten and half murdered at Colwood. On arrival he learned that Thompson had received a severe thrashing at the hands of Seafie. He testified to having seen Thompson on the boat as he was leaving for Vancouver on Saturday night, when Thompson admitted that he had deserved all he got.

In answer to the magistrate, who told him he should not take the law in his own hands, Seafie said: "I know that. I'm satisfied, and I plead guilty." Magistrate Jay then bound him over in the costs of the court to keep the peace for six months.

**ARBITRATION TREATY**

**'TWIXT U. S. AND JAPAN Will Permit Matters of Dispute Going Before Hague for Settlement.**

Washington, D. C., May 5.—A general arbitration treaty between the United States and Japan was signed to-day by Secretary of State Root and Ambassador Takahira. This treaty follows the lines of the several arbitration agreements which have been negotiated between the United States and European nations during the winter in accordance with the plan adopted at the recent Hague conference. It will permit of the arbitration at The Hague of nearly every class of dispute which may arise between the signatory powers.

**DETECTIVE SHERLOCK HOLMES IN REAL LIFE**

**Officer Unravels Berlin Murder Link by Link—Pawn Ticket Clue.**

One of the most brilliant pieces of detective work heard of outside fiction for many a long day has been performed by Detective-Inspector Wannowski, of the Berlin police, who one day recently put his hands on August Heider, a cobbler, aged 43, and charged him with the murder of a boy named Herman Blecher.

On Wednesday, April 8, portions of a dismembered human body were found in a sack in the Berlin Zoological Gardens. Further search disclosed another package of remains, and the police surgeons set to work to put the body together. This they did so successfully that it could be recognized as that of a boy about fifteen years of age.

Then Inspector Wannowski carefully examined some rags of clothing found with the mutilated remains. In a piece of lining was a torn pawn ticket. This was placed together and then the trail was followed up with the result that it was found that the ticket related to a small article pawned by a boy named Herman Blecher.

The latter Wannowski next discovered had been apprenticed to a tailor, but had run away from his master, and had been seen on the night of the murder with two men in a low tavern in the East end of Berlin. Keen on his clue, the detective searched all the slums of the city, and was at last rewarded by the discovery that one of the men with whom the boy had been seen had later been arrested for theft, and was in the Moabit Goal.

**Three Hours' Cab Chase.**

Interviewed, the prisoner declared that the boy went off with the other man, whose name he did not know, but whom he had occasionally seen in the company of a girl named "Bertha." The latter had told him that she was afraid of the man in question, because he had once attempted to strangle her. "Bertha" had, therefore, to be found, and after exhaustive inquiries by quite an army of detectives was discovered in a workhouse infirmary and identified as a girl named Eckardt. She declared, the latter had not known the stranger's name, but said she believed she could find his lodging where he had tried to choke her if she started out from the "thieves' kitchen" where she had met him.

Accordingly, accompanied by Wannowski, she drove for hours about the "Scheunenviertel" in a cab till finally she hit on the stranger's apartment in the Lietzmannstrasse. The police forced the door, and found everything in perfect order, but search in a cupboard brought to light numerous garments saturated with blood and a large butcher's knife. The room also contained a huge block, newly covered with linoleum, on which it is assumed, the murderer dissected his victim.

The final incriminating proof was an apron of a peculiar gaudy pattern, in which the remains of the boy were wrapped up. This was shown in a way that would not excite her suspicions to Heider's wife, who is in hospital, and she immediately identified it as hers, saying that she had left it in her lodging when taken ill four months ago.

Heider, who is described as a degenerate, subject to morbid propensities, and who had been confined in an asylum, was arrested in the streets in the vicinity of the great fire at the garrison church, being pointed out to the police by the waiter of the tavern where he had been seen with the boy. Heider was drunk when captured, but sobbed immediately on being charged with the crime. He strenuously denies his guilt, but the proofs seem overwhelming.

"Did you say a Soda Biscuit?" I'll call the waiter; he will bring some

**ROMANCE OF THE COOLGARDIE GOLDFIELDS.**

In the history of gold-digging and gold-finding many a romantic and tragic story is to be found. Few of these stories, however, possess more interest than that of how the famous Coolgardie mines, in Western Australia, were discovered in 1892—mines which have since yielded millions of pounds' worth of gold. Luck played a great part in the discovery, but it was the reward of perseverance.

In April, 1892, two Victorian miners, named Bayley and Ford, struck out for the northeast of Australia, but after traversing 250 miles they lost their horses and had to turn back. Equipped with fresh horses, they started again on what proved to be a long, tedious, and futile journey, for once more they were forced to turn back—this time for want of water. The third attempt won them fame and fortune.

First they found that which to them was more precious than gold—namely, water. They found a natural well, known to the scattered tribes of that far-away country as "Coolgardie." Pitching their camp beside the well, they turned their horses out to feed and started prospecting the country around. Ford picked up a half-ounce nugget, and before night they had gathered in over twenty ounces of gold. Two or three weeks' more surface prospecting was rewarded with over two hundred ounces. By this time Ford's supplies had given out, so keeping their own counsel concerning their discoveries, they returned to civilization, laid in a fresh stock of provisions, and hastened back to their El Dorado.

Within a few days of their return they happened upon the reef that made Coolgardie. Beginning with a slug that weighed 500 ounces, they picked it out from a cap of that reef in a few hours upwards of 500 ounces of gold. Bayley, carrying 554 ounces of gold, journeyed back to the nearest mining town, exhibited his find to the mining warden, and in a claim for a lease of the land on which this marvellous discovery had been made, and hurried to the field again with a party that numbered 150 men, besides coaches and horses, and all the paraphernalia of prospecting and camping. In their wake in course of time came gold-seekers in hundreds and thousands. From Bayley and Ford's mine there was taken in the first nine years of its history 134,000 ounces of gold, valued at \$530,000.

Almost as sensational as Coolgardie were the Londonderry and Wealth of Nations "finds." The Londonderry was discovered by a party of unsuccessful prospectors on their way back to Coolgardie. Two of them picked up some rich gold-bearing specimens. After a brief search the outcrop of a reef was exposed, from which, in the course of a few days, they took out from 4,000 ounces to 5,000 ounces of gold. From the cap of the Wealth of Nations reef, sold to the value of \$20,000 was secured in a few days—Tilt-Bits.

**THE KINGS.**

"Lo! we are kings of the earth." Men cry, and hurry to build Cities that soon are filled With treasures wrung from the earth. Yea, we are kings! And the Earth laughs and opens her deep. And cities rock in their sleep. And down to the bottomless sweep.

Lo! we are kings of the sea! With brigs and boats we span The breadth of the world for use. The pow'r and the pomp of the sea. Yea, we are kings! And the sea Tumbles tumultuous waves Over the ships that are graves. Batters the boasting of man.

Tho' the Earth swallow all that stands; Tho' the sea make nothing our pride; In which remaineth our might. A mother's bosom; the light In the eyes of love; and the hands Lifted to God in the night! —Full Mail Gazette.

THINKS C. P. R. WILL  
BE ALL-RED LINE

President Shaughnessy Says  
20-Knot Vessels Are Quite  
Fast Enough.

Thomas Shaughnessy, who is in London, gives out that he is there to enjoy himself, and his enjoyment takes the form of innumerable business engagements in his spacious room near the roof of the Savoy hotel during the day, and hardly less insistent are his social engagements during the evening in company with his family, including his two daughters who are at school there.

He is able while there to give the final touches to the new contract with the Imperial government respecting the renewed Empress steamship subsidy on the Pacific.

He is also discussing every aspect of the All-Red project, fully anticipating the Canadian Pacific's association with it though the Canadian Pacific is making no formal approach to the British ministry, rather waiting for ap-

proaches to be made to them. However he does not disguise his preference for twenty rather than twenty-five knot boats, differing in this from Lord Strathcona, who persists in the belief that Canada cannot afford to have anything short of the best. Sir Thomas is also most outspoken in his criticism of the Halifax-Blackwood project which he calls insane financially and impossible chiefly because of the necessary transhipment of passengers and goods.

Regarding Canada's general industrial position Sir Thomas is impressing upon financial circles there that the present Canadian setback is unimportant and natural, and indeed quite healthy as a desirable check to feverishness. On the other hand he speaks with considerable reserve regarding the early recovery of the United States from the recent crisis.

HIS ANSWER TO CHARGE.

Ottawa, May 5.—Auguste Lemieux, barrister, of Ottawa, and brother of the postmaster general, has challenged George Taylor, M. P., to bring before the public accounts committee for investigation his (Lemieux's) alleged connection with the company engaged in the sale of fire extinguishers to the government. The charge against Mr. Lemieux was made by Mr. Taylor in the Commons on Friday.

## SUNDAY BY-LAW IS HELD OVER

COUNCIL WANTS MORE  
LIGHT ON ITS SCOPE

Some Provisions Approved of,  
While Others Will Be Con-  
sidered Again.

Ald. Gleason's by-law providing that all billiard and poolrooms, skating rinks, dance halls and other such places of amusement licensed by the city shall close at midnight on week nights and shall remain closed all day Sunday and that all shops licensed by the city, except those holding liquor licenses which are dealt with already, shall not open for business on Sundays was taken up by the city council last night, but met with the same objection as did his measure to increase the liquor licenses last week. After considerable discussion it was held over in committee until the members of the council have had more time to look into its provisions. Certain of the members had seen the by-law for the first time last night and took the ground that they should be more familiar with the measure before they set the seal of their approval on it. To certain sections, such as those providing for the closing of billiard and pool rooms and night on week days, no objection was taken, but the majority of the council wanted more time to look into the clauses affecting the sale of goods on Sundays in certain classes of shops licensed by the city.

Besides the provisions regarding hours of closing for licensed places, referred to in the by-law, it is provided that the chief of police shall be appointed an inspector to whom all persons desirous of obtaining a license, for any of the purposes mentioned in the by-law, must apply for a certificate of character before securing a license. The chief's decision can be overruled only by the council.

There was a large attendance of supporters of the by-law.

The by-law was introduced on motion of Ald. Gleason, seconded by Ald. Fullerton, and received its first reading without comment.

Moves Second Reading.

In moving the second reading of the by-law, Ald. Gleason explained its provisions at some length. Regarding the certificate of good moral character required he said that this was a most important provision and one that the public interest demanded. There was no necessity for keeping billiard and pool rooms and such places open after 12 o'clock at night. Personally he was in favor of lots of good healthy amusements for young people, but he did not think that including in these amusements after midnight was either healthy or profitable. He had recently visited some such places late Sunday night and had found young boys engaged playing. Too much of this kind of thing unfitted youths for the more serious duties of life. He read two clauses of the Municipal Clauses act to show that the city had the unquestioned right to close places of business such as referred to in the by-law on Sundays. The by-law had been carefully drawn by the city solicitor and had been submitted to the city barrister who had approved it as it now read, within the powers of the council to enact. There was a general demand for a by-law such as this. It was the unalienable right of every person employed in a shop or any such place to have one day in the week off. He did not see why the majority of the shops should be forced to close on Sundays, and a few be allowed to remain open. There was no excuse for this. People had ample time to do all their shopping during the week. It was urged against Sunday closing that this was a tourist resort and that certain places should be allowed to remain open for the benefit of visitors to the city. This however, did not hold good. The hotels were meant to supply the wants of travellers and could do so.

Sections Are Adopted.

The by-law was then given its second reading and referred to committee of the whole. The first three sections which read as follows were adopted as drafted:

"(1) An inspector of the licenses hereinafter in his by-law enumerated or referred to shall be appointed by resolution of the council, and in the meantime, and until such appointment is made, the chief of police shall fulfill the duties.

"(2) Every person requiring a license to carry on any of the trades, calling, occupations or businesses enumerated or referred to in this by-law (except milk, drugs and medicine) shall apply in writing to the inspector of licenses for such license before issuance thereof.

"(3) Before a license for any restaurant or tavern (other than licensed to sell liquor by retail) or any dance hall, skating rink, bowling alley, billiard room, pool room, or any place of public amusement, or for any hawkers, peddler or huckster is issued, the inspector of licenses shall ascertain if the applicant therefore is of good character, and the same of all members in the case of a firm or corporation, and shall make report thereon to the Mayor. If such report does not show the applicant to be of good character the application shall be referred to and be dealt with by the council, and the applicant shall be heard in support."

First Hitch Occurs.

The first hitch occurred over section 4 which reads as follows:

"(4) Save as to restaurant and tavern licenses the licenses referred to in the next preceding section, and the licenses issued under the Revenue by-law for the time being in force for all shops (except for the sale of milk, drugs and medicine) hereafter, shall be issued good for week days only."

When this was read, Ald. Cameron said he did not want to enter any objection to the by-law in itself but it was not right nor fair to ask the council to take up such a measure and pass it through at one sitting. Up to this the members of the council had not

## STAMPS RUIN HER VOICE.

Norfolk, Conn.—The case of Miss Myra Silvernale, assistant to the postmaster of Norfolk, is interesting to the physicians of St. Luke's hospital. When she attempts to stamp letters, her tongue and lips swell, her throat becomes ulcerated, and she loses her voice. Specialists say it is a case of poisoning.

Many people unconsciously poison themselves. The bowels, kidneys and skin should rid the system of waste matter. If one of these organs is weak, this waste stays in the body, poisons the blood and is the chief cause of headaches. "I was a sufferer from frightful headache for over two years. Sometimes I was unable to work for days at a time," says Mr. Bert Cornell, of Taylorville, Ont. "A short time ago I was advised to try 'Fruit-a-tives.' Immediately, the headaches were easier and in a week they left me for good."

"Fruit-a-tives are sold by all dealers—50c. a box—6 for \$2.50."

even seen the measure. This section opened a wide question and he thought it was only fair that the council and the people generally should have time to study it carefully. Personally he feared it was not workable. At best the Sunday question was a broad one and the people of the west were broad-minded regarding the observance of the Sabbath. He thought they should stop here for the present and should postpone the matter. Ald. Gleason, to have the committee rise, report progress and ask leave to sit again.

Ald. Gleason said the by-law had been before the health and morals committee for two weeks and a resume of it had been published in the press so that all members of the council had had an opportunity to become acquainted with its provisions. He did not want to railroad it through.

Ald. Henderson asked if the by-law would not prevent livery stables and transfer companies from doing business on Sundays. This he thought should not be done. The council should know what it was doing in this matter and, therefore, he thought the by-law should be held over.

Ald. Fullerton said the term "shops" in this clause would have to be made more clear. There was no such thing as a shop mentioned in the revenue by-law.

Further Opposition.

Ald. Pauline said he felt with Ald. Cameron that this clause was unworkable, for it would throw certain classes of trade on Sunday to certain people. He would support many of the clauses, but if the matter were pressed now he would be forced to vote against the by-law, or at least with Ald. Cameron to lay this clause over.

Ald. Hall took a similar stand to Ald. Cameron and Pauline. He favored the closing of pool rooms and such places as suggested, but other portions of the by-law were merely discrimination in favor of certain businesses, which would still be able to do business on Sunday.

Ald. Cameron remarked that it was quite evident that the by-law would require considerable amendment. Many places of business, including those in Chinatown, were without licenses, and these could, under the by-law, remain open on Sundays. The provision regarding drug stores also was not explicit enough. It provided that they might sell drugs or medicines, but what if a person required a splint or something of that kind, which could not be called medicine?

Ald. Gleason: "That is splitting hairs."

Ald. Cameron: "No, that is splitting splints."

Continuing, Ald. Cameron said he had no objection whatever to the provisions of the by-law relating to places of amusement. But there was nothing in the by-law to define what a shop was. For a license of \$5 a man could carry on almost any business. He moved, seconded by Ald. Hall, that the committee report progress and ask leave to sit again.

Ald. Gleason said he had no objection to laying the clause over and reading the others.

Mayor Hall also favored this action. While in favor of the by-law, he wanted to see it made workable. Ald. Cameron accordingly changed his motion so as to lay this clause over as suggested, and it then passed.

Another Section Stands Over.

Section 5 was then read as follows, and on suggestion of Ald. Cameron was also allowed to stand over:

"(5) The council may hear and determine any complaint against a holder of any license enumerated or referred to in sections 1 and 2 of this by-law alleging a breach of the condition in the next preceding section referred to, after notice thereof to such holder. If the council determine upon such hearing that a willful breach of the condition has been committed by the licensee they may, by resolution, require the licensee holder within a time, to be named, to enter into a bond not exceeding \$—, with one or more sureties, to be approved by the council, conditioned for the future compliance with such conditions, and the same resolution may direct that in default of such bond being given within the time stated the license shall be cancelled or suspended for such time as the council may deem right, and the said resolution may further direct the refusal of any similar licenses to the person offending."

In connection with this clause, Ald. Gleason said that it was impossible for the council to create a new criminal offence, the power to do so being only by the Dominion parliament, but the city solicitor and the city barrister had advised him that this clause was well within the powers of the council.

Christmas Struck Out.

Clause 6 was next read. It is as follows:

"(6) Public dance hall, skating rinks, bowling alleys, billiard rooms and pool rooms shall be closed at 12 o'clock midnight on the day of Christmas, and shall remain closed until 5 o'clock of the ensuing morning, and on Sundays and Christmas day, so as that neither dancing, skating, bowling, billiards nor games of pool may be carried on therein by any of the public. Provided that this clause shall not apply to entertainments for charitable or public purposes or by fraternal or fraternal organizations."

Ald. Mable asked why places of

amusement were to be closed on Christmas.

Ald. Gleason replied that Christmas was generally observed the same as the Sabbath.

Ald. Hall objected to Christmas being included, Christmas was a holiday, held sacred by some and not by others. Because some held the day sacred was no reason why they should force others to do so. This was going too far.

Ald. Henderson was of the opinion that this clause was not of much use, for ways could be found of getting around it. He did not think that the by-law should be allowed to interfere with any private entertainments, but did think that the part of the clause meant to provide against this made the whole clause inoperative. He would like to see this clause made to apply only where a fee was charged.

Ald. Hall moved an amendment to a motion by Ald. Gleason that the section pass as read, that the words "and Christmas day" be struck out.

Mayor Hall declared the amendment carried.

Show of Hands.

Some of the aldermen called for a show of hands, but the mayor pointed out that there was no provision for such a thing in committee. They could put themselves on record when the by-law came back to the council. If the aldermen were agreeable, however, he had no objection to a show of hands, although it would not be recorded. This was then taken with the following result: For the amendment Ald. Cameron, Henderson, Hall, McKewen and Mable; against, Ald. Fullerton, Gleason, Pauline and Norman.

Ald. Henderson moved that the clause as amended stand over. This was agreed to, and on motion of Ald. Gleason the committee rose, reported progress, and was granted leave to sit again.

One clause of the by-law was not read, it is No. 7, and it is as follows: "(7) Schedule A of the revenue by-law, 1900, No. 321, as amended by by-laws Nos. 393 and 508, is hereby further amended by inserting the following paragraph:

"26a: Every person, but so that the tax shall be payable by one or other of the persons liable, and not by more than one, who owns, keeps or conducts a public dance house or public ball room, skating rink, bowling alley, billiard room or pool room, \$5 for every six months."

SAUSAGES HAD  
A GREAT RUN

VICTORIANS BOUGHT  
HEAVILY FOR WEEK

First of Article Made in City  
Was Much Sought  
After.

The first sausage that was ever eaten in Victoria was made by a Scotchman who became reminiscent in the vestibule of the Dominion hotel this morning, and declared that it was the best sausage ever made, and was far and away ahead of the common article offered to the public by the trade to-day.

Sausage in those days, that is in 1859, was sausage, and the whole town ate nothing else for a week, says the retailer of the story. The hotels and the clubs, the private houses, the restaurants and lunch counters all had a heavy run on the orders for sausage.

Sausage as supplied by Tom Harris, butcher of Johnson and Wharf streets, in '59, was in demand at all places where the inner man was supplied. The first sausage ever made in Victoria had for its ingredients beef and pork and a little bread to give it a color. It was retailed at 30 cents per pound to the public and sold to the hotels and restaurants at 25 cents per pound. It was made by means of a five knife chopper, which turned out 80 pounds of the real article at a clip, and returned to the man who first set the machine going, who is the man who tells the story, the sum of \$430 during the first month. After this time, however, the public taste had become saturated with sausage, and the profits did not come in so regularly, but the business was nevertheless a good paying one for many months afterwards, until in the course of time other sausage machines arrived in the country and competition, and the manufacture of the lesser article, reduced the public taste, and the business, to its present standard, when, it is said by the raconteur, there is too much corned and too little bread used in its composition or make up.

The history of the first sausage, as told by the maker at the Dominion, is as follows:

"In '59 I was here looking for a job at my trade as a butcher before I went to the Cariboo district. I went to see Tom Harris, who had bought out the butchering business of Cole & Mathews, which was located on John street, near Wharf street. Old Tom offered me a job in ten days, and told me meanwhile to go and put up at an hotel at his expense. But I wanted to see what was doing on the Fraser river, and went there first. While there I got a letter from Tom Harris telling me to come at once, and as we were having a bad time of it there I came over to work for him. When I arrived he told me there was a machine down in the warehouse of J. J. Southgate, which was on the lower side of Wharf street, near Yates street. We went down and looked at it, and I found it was the same kind of machine as I had always used in Glasgow. He bought me a week. We made a lot of money from that machine, making the sausages of beef and pork and a little bread, and selling them at 30 cents per pound for pork sausages, and charging the wholesale men 25 cents. Everybody ate sausage. All the hotels, restaurants and private houses wanted sausages, and for a time we made a lot of money. My share of the first month's profit was \$430, but after a time the public taste became tired of the bag of mystery and resorted to

## TOASTED CORN FLAKES

"NO GREEN IN HER EYE"

She wants Kellogg's, for she knows that there's health as well as deliciousness in every flake. A food for thinkers as well as toilers—a food the dyspeptic can thoroughly enjoy, and children thrive on. Such is the genuine "Toasted Corn Flakes."

This is what I want—the kind that bears the signature of Kellogg's Sanitas

other food, only returning to the sausage diet at intervals. I afterwards went to Cariboo and went mining, and have stayed there ever since."

CENTENNIAL SUNDAY SCHOOL

Interesting Reports Presented on the Occasion of the Anniversary.

On Sunday last the anniversary of the Centennial Methodist Sunday school was held, when Rev. J. P. Westman of Vancouver, preached both morning and evening, and in the afternoon Rev. Christopher Burnett, of the Central Baptist church, gave an interesting address to the children. A large platform was erected in the church for the scholars, which was well filled.

Reports were read by the superintendent, secretary and treasurer, showing the prosperous condition of the school. The enrollment now is 445, as follows: Teachers and officers, 23; adult classes, 34; intermediate classes, 160; primary, 90; home department, 43; cradle roll, 85.

The average attendance exclusive of the home department and cradle roll was 132.

The cradle roll superintendent reported 85 on the roll, 20 promoted and one removed by death. Three having left the city, have been transferred to the cradle roll at Duncan.

The home department has only been inaugurated during the last three weeks and has proved quite successful.

In February, 1903, there were but seven scholars bringing their own

Bibles to the school. This year the average per Sunday was 109.

"The collections this year were considerably in advance of last. The average being \$6.13 as against \$4.77 last year.

The superintendent reported that 21 of the scholars had joined the church during the year and that many more were in training in the catechism class preparatory to taking the same step, and that 77 had signed the temperance pledge.

The librarian reported 408 volumes in the library with 79 members on the roll. A boys' club and reading room has been reopened this year for the benefit of the scholars.

The treasurer's report showed a very successful financial year. The total receipts were \$558.93, and the expenditures \$549.70. For missions \$81.40 has been collected by the Sunday school this year and \$57.55 was forwarded to the Ragged School Union of London, England at Christmas time, and \$15.60 for the fresh air fund of the same institution.

The officers elected for the ensuing year were as follows:

Superintendent, Wm. C. Holt; assistant superintendent, C. B. Deaville; secretary, Wm. Arthur Deaville; treasurer and pianist, Edward Parsons; librarian, George Holt; cradle roll superintendent, Miss Aubin; home department superintendent, N. Shakespeare; assistant home department superintendents, J. Sherk, R. A. Lowe; boys' club committee, J. W. Alton, J. H. Brown, Edwin Parsons; Missionary committee, Miss Mills, Miss Beck, Geo. S. Lowe and J. W. Alton.

## THE TOURIST ASSOCIATION.

There is no question in the mind of any reasonable person that the Victoria Tourist Association has done good work for the city. The members of the City Council admit that the association has justified its existence, and also the expenditures which have kept it in existence and enabled it to accomplish the things to which it set its hands. Only a stringency in civic finances has deterred the board from making the usual annual allowance for the promotion of the work of the association. Consequently the grant this year has been cut down. If the cause is to be prosecuted with customary zeal, the shortage must be made up in private contributions. We think it would be a mistake if the work were discontinued just at the time when its influence upon the business of the city is becoming manifest. The mercantile element of the community is not the class which benefits exclusively, or even principally, from the advertising programme of the Tourist Association. Yet it is the mercantile class that has been called upon chiefly to maintain the work. We do not wonder that volunteer canvassers who take a deep interest in the maintenance of the propaganda are loth to solicit subscriptions from the merchants of the city. The calls upon our business men are many, and the responses in the past have been spontaneous and generous. We think the time has come for the classes most directly interested to manifest in a tangible manner some reasonable amount of zeal in the cause. If they do this, there need be no abatement in the energies of the Tourist Association. And there will be continued evidence of the good results of an intelligent, well-directed advertising campaign.

## A PALPABLE FOZZLE.

The Colonist this morning printed a rather clever article on the ancient and royal pastime of golf. Our contemporary admits a limited experience in the game which is not a game, but a "cult, mystery or religion." Yet it seems to be familiar with the nomenclature of the links upon which the rites of this "cult, mystery or religion" are practised—practised sometimes, we grieve to say, upon days of the week which would not meet with the approval of a certain Victoria alderman. If the gentlemen knew about it, the Colonist speaks of good people who during the present week "will be driving the little sphere with their drivers, or putting it with their putters, or lifting it with their lofters, or doing things like that." Did it ever hear of equally good people fooling it with their foolsters? That is what our neighbor has been doing, and we warn it to beware in case it hears a further example of golf nomenclature which may sound like "fozzle." That will mean look out for a jar upon the solar plexus, a part of the editorial anatomy for which those who practise the "cult, mystery or religion" have no professional reverence. Why? In what respect, our contemporary may be inclined to ask, has it fozzled? Because of the suspicion it has cast upon the cloth. It says "golf has a language of its own. Its devotees speak with tongues. That is, they say things that are unintelligible to the uninitiated, and it is told of a certain gentleman of the cloth who shall be nameless that there are times when his silence on the links is more eloquent than he can ever hope to be in the pulpit." This is manifestly not only a reflection upon the "vocal vocabulary" (if the verbal fooling may be excused) of some of the reverend gentlemen of the city, but upon their ability as preachers. We fear "the cloth" will not relish drives of that kind. We look for an apology—unless of course the devotee referred to has been reduced to the state of mind of the Scottish minister, also, we grieve to say, a habitue of the links, who was heard muttering to himself from the recesses of a bunker, "Aye, aye; I'll hae to gie it up." "Gie up what?" queries his partner. "Gie up golf!" "Na, na," said the disciple; "Gie up the meelistray."

## A NEW IDEA IN SHIPBUILDING.

One of the technical journals of the United States seems to think it has solved the problem of swift navigation. The Lusitania is admitted by this authority to be just about the limit in shipbuilding for speed under present conditions in naval architecture. If there is to be any further advance, a departure must be made from accepted standards. This departure has been found in a hydrocurve boat. We confess we do not understand what the term hydrocurve implies, but it doubtless has some reference to improvements in hull construction. According to the technical journal in question, a hydrocurve boat has already been built and has justified expectations as to speed. It says the innovation in its test runs has obtained double the speed

of the ordinary circular hull form of the same dimensions, draught, and tonnage, without increase of motive power. It demonstrates the correctness of the principle it embodies, and proves its entire feasibility in actual navigation. Moving the water in one direction only, displacing it from its surface downward, instead of ploughing through the water and displacing it to either side of the boat, a saving of close to 70 per cent. in power is secured—a full unit of efficiency from the flow and pressure of water being obtained, as compared with about one-third of a unit heretofore utilized by boats and ships under sail or steam. Nor is this increase of speed attained at the cost of other desirable factors. Reference has already been made to the hydrocurve's endurance of the severe washing and churning of the larger vessels during the recent St. Louis celebration. Many earlier and even more severe tests had established the fact that the hydrocurve is more stable and seaworthy under rough weather conditions than is the ordinary hull. This remarkable stability is due simply to the geometry of its construction, which gives it three times the advantage of the ordinary hull in overcoming wave action, because of its greater efficient surface and because in the hydrocurve hull the greatest area of width and flatness is forward and above the centre of gravity. The prow, which ordinarily is not in contact with the water, is a conical wedge, so that the waves are not given anything like the purchase to roll the boat in a rough sea that is given by the ordinary wedge-shaped prow, yet obviating bluffness of bow.

Yet the White Star liners projected, and to be the largest ships in the world, are not to be an exemplification of the hydrocurve principle. If the only hope of American builders lies in the adoption of the hydrocurve principle, we fear the British builders will remain supreme for a goodly number of years.

## A GASTRONOMICAL FEAT.

It is announced that the opposition at Ottawa is going to fight most determinedly against the franchise bill introduced by the Minister of Justice. In the year 1898, when Sir Charles Tupper was leader of the Conservative party in the House of Commons, that party objected most emphatically to the suggestion that the voters' lists of the provinces should be used in Dominion elections. The Premier at that time pointed out the conditions under which the provincial lists would be adopted, reserving to the federal power absolute control of the franchise. In view of recent occurrences it has been deemed necessary to exercise the unquestioned rights of the Dominion. Now we find the opposition turning abruptly in its position and swallowing every word of condemnation uttered in 1898. During the session of that year Sir Charles Tupper, addressing the House of Commons, said: "I trust therefore that my hon. friend will find some better reason than that for avoiding what I feel is a matter of great importance to this House—to its character, its standing, its estimation in the eyes of its own members and in the eyes of the world; that is the control of its own franchise such as the great parliament of England possesses, as well as the parliaments of France, Germany and other great countries. I hope it is still not too late for the government to reconsider this matter, in the light of the remarks that have fallen from the introducer of the bill, and in the light of the remarks which I have made, with the view of doing that which we all wish to do—avoiding any great expense in connection with the franchise of the country. This Dominion is quite able to bear a certain amount of expenditure for so important a purpose, and a reconsideration of the question may enable us to reach a common ground where we may have due and suitable control over our franchise, adopting for its basis what may be found to be most wise and most judicious, and what will not leave us in the humiliating position of being elected to sit here under franchises which are liable to be changed from day to day by provincial legislatures—in some cases very small legislatures—over which in that regard we exercise no control whatever. I will not detain the House further than to say that I hope still it is not too late for the government to reconsider the measure along that line with a view of reaching a satisfactory solution of the question by the adoption of a policy that will commend itself not to one side of this House only, but to all of us sitting on either side, and enable us to preserve for the Parliament of Canada that independent position which I feel is absolutely necessary to command the respect either of our own country or of other countries that may be aware of the position we occupy."

The Japanese are determined to find a field for their energies in some part of the new world. Barred out of Canada, they are flocking to Peru and other countries of South America by thousands. There will surely be an Oriental question for all of the southern republic to deal with shortly. Perhaps it may divert the attention of our hot-blooded neighbors from their insatiable propensity to use their machetes upon each other.

We are told Premier McBride's intentions anent the water question in Victoria are honorable. As the representative of Victoria in the legislature he is anxious at last to do something to demonstrate that he is interested in the matters directly affecting the wel-

fare of his constituents. Yet when the Premier was asked to confirm rights granted by the legislature more than twenty years ago, rights confirmed by succeeding legislatures if one can judge of the intentions of the members of the legislature by their spoken words, all we get is something we did not ask for: another expert report on the situation. And it is to be feared the latest expert opinion will but further confuse the issue and make it more difficult of solution.

Victorians irrespective of religious belief or denominational connection will learn with regret that declining health has compelled His Grace Archbishop Orth to resign his position. We understand there is no hope that the health and strength of the right reverend gentleman will ever be sufficiently restored to justify his assumption of the archiepiscopal office in this country, but there is reason to believe a period of rest in southern climes will in a measure renew the vitality dissipated by devotion to duty. Father Brabant, who will temporarily administer the affairs of the archdiocese of Vancouver Island, is a pioneer missionary of the church, deeply beloved for his unselfish ministrations.

The uncovering of a plot to blow up high officials with dynamite reveals a serious condition of affairs in British India. It is comparatively easy for Lord Kitchener to deal with sporadic uprisings of individual tribes. But it is true that the methods of European anarchists are being introduced, that is a different matter.

Once more it seems necessary to announce that communications intended for publication must be accompanied by the names and addresses of the writers. "Boarder" will understand why his letter does not appear tonight.

HAS RESIGNED  
FROM DIOCESEARCHBISHOP ORTH'S  
HEALTH IS IMPAIREDHe Has Therefore Retired—  
Father Brabant is Apostolic Administrator.

On Sunday last at St. Andrew's Roman Catholic cathedral it was announced that His Grace Archbishop Orth, who is in Italy, had resigned owing to failing health. The archbishop, it was announced, was in serious ill-health and the physicians gave little hope of his recovery. On this account Archbishop Orth had asked leave of His Holiness the Pope to resign and his resignation had been accepted. Notice to this effect has been received at the Bishop's Palace in the form of a decree from His Holiness the Pope. The announcement was also made that Rev. Father Brabant, a pioneer priest of British Columbia, had been named to succeed Archbishop Orth as apostolic administrator subject to the Holy See with such time as the appointment of an archbishop to succeed Archbishop Orth permanently is made. Two years ago the archbishop's health began to fail and at the beginning of the present year he decided to journey to the south of Europe on a vacation in search of rest and restored health. From the Riviera short bulletins were received from him from time to time telling of his continually failing health. As time advanced the reports were not reassuring and it became to be feared that the archbishop's return was not likely to be possible. At last the news came that his full recovery was regarded as impossible and following on this has come the announcement of his resignation. The retiring archbishop was very popular in Victoria and there will be general regret that he has been forced to leave the city.

S. G. Mr. Bertrand Orth is 59 years of age, having been born on December 6, 1848, at Cologne, Germany. He was ordained at Brussels in 1872. In 1900 he was appointed to the bishopric in Victoria, succeeding Bishop Christie, who went to Portland, Ore., where he still is. The diocese of Victoria, which includes the island, was raised to an archbishopric in 1902 and Bishop Orth became its first archbishop. As a priest Archbishop Orth was the parish priest of St. Laurence, parish of Portland, and built up that parish, his departure being much regretted when he came to Victoria. Since he took charge at the Bishop's Palace in Victoria, Archbishop Orth has been a hard worker and very successful. He has paid off all the debt on the cathedral and church property, and not only is the cathedral free of debt, but nothing is owing on the Bishop's Palace. He has been a zealous worker and has the reputation of being a keen business man.

Rev. Father Brabant, his successor pro tem, is made apostolic administrator. He is the only one of the local priests who was a priest under Bishop Demers, first bishop of Victoria. He has remained since under Bishops Segars, Brondel, Lamer and Christie. He has been on the coast 39 years and is at the present time 62 years of age. He has for the most part been engaged at Hesquelt among the west coast Indians, concerning whose language he is an authority. In 1874 in company with Bishop Segars he was a passenger on the trading schooner Surprise. He has had many adventures among the people of the island coast, with whom he lived so long, being shot on one occasion by superstitious Indians when a smallpox epidemic was causing illness among the tribesmen. During the absence of Archbishop Orth he has been administering the affairs of the diocese.

DONDERO MUST  
STAND TRIALALLEGED THAT KISS  
HAD IMPORTANT PARTPrisoner Brought Back From  
San Francisco is Committed.

Dondero, accused of robbing Tony Parravincini of \$1,400, was yesterday committed for trial and will come up at the assizes. Parravincini gave the details of the confidence game which he alleges was worked on him.

Parravincini, who spent last year in Alaska, where he saved considerable money, told of having met Dondero in Seattle and of Dondero having introduced him to two other men, one of whom was named Parodi and the other a short fat man, whose name he did not get. When he had first met him, Dondero had asked him how much money he had and he had told him he had \$400 with him and more in the bank in Victoria. The short fat man had said he had been left \$27,000 by his father for distribution for charitable purposes, and it was eventually agreed that all four should come to Victoria, when if Parravincini could put up the amount of money he said he possessed, the fat man's \$27,000 would be divided between him, Dondero and Parodi. They met in a box in the Poodle Dog cafe in this city and the fat man had produced a bundle of paper which looked like money and had said it contained the \$27,000 which was to be divided up. Dondero and Parodi also produced purses which appeared to contain money. After some persuasion Parravincini had agreed to put his money on the table too. This consisted of the \$420 he had with him in Seattle, \$1,000 he had withdrawn from the Dominion Savings Bank, and a gold nugget valued at \$20. All the money was to be wrapped up in a handkerchief and placed in a valise. While this was being done by the fat man, Dondero and Parodi leaned over and kissed him in such a way as to shut off his sight of the valise. The valise was duly locked and the key kept by one of the party, while the valise was given to Parravincini to take to Nanaimo, where Dondero and Parodi were to meet him and divide the \$27,000 with him, and each get back his own money in addition. They were then to buy a ranch at Nanaimo. Dondero had threatened him that he would shoot him if he opened the valise before the arrival in Nanaimo of himself and Parodi. Dondero had walked with him to a station outside the city and had put him on the train for Nanaimo, giving him \$8 in money.

He kept the valise with him all the time until next morning, sleeping with it under his pillow. As his two erstwhile friends and the participants in his alleged good fortune did not arrive on time he had broken open the valise, only to find that the parcel which he had thought contained \$27,000 in money was nothing but a bundle of old paper and that the purses put in by Dondero and Parodi were empty. His money was not there. He had returned to Victoria and had notified the police of the theft. The next time he had seen Dondero was in jail at San Francisco. He identified a purse and a handkerchief, the former as the one Dondero had said contained his money and which had been placed in the valise, and the latter as the handkerchief in which all the money was supposed to be wrapped. Parravincini in cross-examination by Mr. Alkman, said that the prisoner asked him to place his money in the handkerchief and the fat fellow tied up the handkerchief. He did not know what was done with the handkerchief. He saw it tied up with the purses in it. It was the same handkerchief as had been produced in court. It took about one minute for Parodi to kiss him. Parodi was the only one near him. "He kissed me only once and put his arm in front of my eyes while he did so." He did not again see the handkerchief. The valise was between Dondero and the fat fellow, and after the kissing the fat fellow had it. Parodi told the fat fellow to give the valise to me. It was locked. I heard the lock click when the other man was kissing me. He kissed me under the chin. He kissed me quietly. It was not a noisy kiss. Oh, no.

Questioned as to how he came in possession of the money he said he had worked for it at Dawson and had been employed by the Guggenheims on their works there. He had been six years saving it.

"Did you ever see me up there?" asked Mr. Alkman. "I don't know. I may have seen you in the local mission. I was often there." "I went from here to Seattle for a job. I met accused in a hotel there. I thought I was going to make \$9,000 out of the deal at the Poodle Dog."

"Did you think you were going to get the \$9,000 easy?" "No. They threatened to kill me if I did not put up my money, because they would lose their fortunes. I was frightened. There was only the waiter in the cafe. It was about 11 to 11.30 at the time they robbed me. I did not open the valise until 5 a. m. in the morning. I then went away where I found the money was not in it, and it is there yet. I was mad and went and told the police. The prisoner gave me \$8 going down to the station on the 28th of November. I had another \$1,000 in the bank which I couldn't get out under fifteen days' notice. God's job, or that would have gone like the other."

"Do you think through taking these proceedings you will get your money back?" asked Mr. Alkman of the witness.

The question was put through an interpreter, and Parravincini answered that he did not know whether he would get the money back or not.

## TO-MORROW'S SPECIAL OFFERINGS

## A Special Offering of Curtains

VALUES TO \$10.00 FOR \$3.75

For to-morrow a special clearing line of Bon Femme Curtains will be offered for sale at prices that are sure to move them quickly. They are shown, some with frilled top and bottom, others with the single frill, in different shades of cream and white. The regular values are from \$6.75 to \$10.00. On sale to-morrow ..... **\$3.75**

Limited  
Phone 3. VICTORIA

can could leave their homes at 7.25 in the morning and reach the city at 8.30, and returning could arrive at their homes by 7.10 in the evening. That this service had been appreciated by residents of the district and by those of the intermediate stations along the line, it was felt, was shown by the increased building that had gone ahead while the summer service was in force. This has been shown by the sales of real estate that had been made during the winter months at the lake. There had, the speakers affirmed, been several summer houses built there last winter, while many were in course of construction, and would soon be ready for occupancy. If the suburban service were abandoned the meeting thought the property values in the districts affected would drop at least 50 per cent., while the further expansion of the districts would be at a standstill, and the traffic along the line would experience a heavy falling off.

Speakers at the meeting said that the railway people were of the opinion that the double daily service between Nanaimo and Victoria daily will fill all the requirements of the people who wish to dwell there during the summer months and come daily to the city. This, however, is held to be incorrect, and the residents are of opinion that the old service would be more suitable than the proposed double daily service which is to come into effect on June 1st. It was also held that the daily service would help to build up the tourist trade of Victoria, and it was

## Why Do You Suffer THE AGONY OF CORNS?

## CANNOT COME HERE FOR VICTORIA DAY

American Fleet Cannot Come on That Date, but May Month Later.

No portion of the American fleet will be present to take part in the Victoria day celebration, although it is possible some of the ships will call here during the latter part of June, previous to sailing for Japan. This information was contained in a letter from V. H. Metcalf, secretary of the United States navy department, read at last night's meeting of the city council. The letter read as follows:

Sir:—The department appreciates the kindness of the municipal council of the corporation of the city of Victoria in its invitation that a portion of the United States fleet in Pacific waters shall visit Victoria on its way to Japan during the coming season. The itinerary has already been laid out for the fleet's visit to Puget Sound, and it is hardly possible at this late date to change the itinerary. It may be, however, that after the ships that are to dock at Bremerton, are ready to sail for the rendezvous at San Francisco, the latter part of June, some of them may stop en route at Seattle, and it is hoped in time to permit this delay.

I will take pleasure in communicating to you on this subject at a future date.

I have the honor to be, Very respectfully,

V. H. METCALF, Secretary.

—The funeral of the late Mr. Armond took place this afternoon at 2:30 o'clock. Rev. Dr. Campbell, pastor of the First Presbyterian church, conducted the services.

—City Treasurer Kent has completed sending out the annual notices regarding sewer rentals and sewer frontage taxes. In all 3,500 have been issued and total amount of the levy is \$20,200.18, as against \$17,809.63 last year.

—H. W. Shepherd, jailer at the police station, was in the police court this morning and received the congratulations of many friends there on the progress which he is making toward complete recovery from his recent illness.

—The regatta in connection with the Oak Bay Boat Club has been postponed for a week and arrangements have now been made for holding it on Saturday, May 16th. A number of entries have already been received, and with the extension of time there will be a number more.

—It is expected that the uniforms and helmets for the police force will be on hand for Victoria day, and will be first worn that day. An effort has always been made in previous years to have the force turn out in new uniforms on May 24th, and this year is no exception for the rule. On and after that date this year, therefore, the Victoria police will parade in the British style of uniform adopted by the police commissioners.

—This morning a building permit was issued to James Couch for the erection of a house at the corner of Cook and Princess streets, to cost \$2,050. Yesterday permits were issued as follows: Thomas M. Sturges, house on St. Lawrence street, to cost \$1,500; Alex. Bruce, senior, addition to house on Russell street, \$100; Moore & Whitelaw, house, corner of Andrew and Beacon streets, \$1,900; Louis W. N. Scott, house on Toronto street, \$1,450; E. J. Gaiser, stable on Fisguard street, \$250; E. A. Lewis, house on Heyward avenue, \$4,000.

—L. H. Seymour, acting clerk of the police court, this afternoon completed the work of transcribing his shorthand notes in the Garesche-Carter case and will deliver a copy to the magistrate this afternoon, by whom they will be forwarded to Judge Lammiman and the accused doctors will in a day or so have an opportunity to elect whether they desire to be tried before Judge Lammiman or at the assizes next week. It is practically settled that they will choose speedy trial, in which event no time will be lost in bringing on the case, as Judge Lammiman is in a position to handle it almost any time. Attorney-General Bower will prosecute the case in person.

## DOGS MUST BE KEPT OUT OF BEACON HILL

Parks Board Will Take Action Against Owners of Canines Running Loose.

The parks board is determined that the regulations of that body against the running at large of dogs in Beacon Hill park must be observed, or action will be taken against the owners of all canines found running loose. Today notices are being posted up throughout the park, and the parks board warning the public against allowing dogs in the park unless on leash.

The reason for the putting into force of this rule is that dogs have in the past done a lot of damage in the park by chasing the wild fowl, particularly the water fowl, tearing up the flower beds and annoying and scaring the various animals in the park. Owing to complaints made last year the parks board decided that dogs should not longer be allowed in the park, but no definite action further than this was taken. Now, however, notices are being put up and when this has been done and the public thus given plain warning that dogs are not allowed in the park, anyone disregarding the park's rules in this respect will be proceeded against.

The board is pushing work forward on North Ward park. Half the park is now being harrowed and water pipes laid. This half is to be seeded down and looked after this year, while the other half, which is green sward, will be left as it is until next year, so that it may be used for athletic purposes until the portion now being seeded is in shape, when the remainder will be fixed up. This is thought to be better policy than to close up the whole park at once, and leave the young men of the district without any recreation grounds for a whole season.

## SPECIAL MEETING OF OAK BAY COUNCIL

Question of Fencing of Water-front Property is Broached—Routine Business.

A special meeting of the Oak Bay council was held yesterday in the offices of the secretary in the chancery chambers, with all the councillors present except Councillor Henderson, who has not yet returned from Ottawa.

The reports of the roads, sewer and bridges committee of the meeting held on the 20th ult., was adopted.

The local improvement by-laws providing for the raising of money to grade Burns and Byron streets and Central avenue, were considered and finally passed.

The by-law providing for the sale of the present school site passed its third reading. This will enable the board of trustees to provide part of the funds for the new school and fittings. The by-law for the raising of \$10,000 for the new school building was referred back to the solicitor for amendment.

The engineer was instructed to give an estimate of the cost of fencing around the waterfront properties belonging to the council. The purpose of the fencing is to prevent cars and other rigs from driving over the property. It seems that it has been the habit recently to drive across the asphalt tank which is a dangerous matter with heavy teams.

The school trustees who were invited to attend the meeting, did not turn up, as most of them were out of town.

They will probably meet with the council at some future date to be mutually arranged. The date set for this meeting was arranged by the council without consulting with the trustees and the result was as stated above.

The next regular meeting of the council will be held on Monday next at the Oak Bay schoolhouse.

## JACOB CHIPPS GIVEN MEDAL

## INTERESTING EVENT AT THE A. O. U. W. HALL

Heroic Act of Indian Rewarded by Royal Humane Society.

"I thank you for the honor you have conferred upon me. I will not forget the kindness you have shown me. The remembrance of the time of the struggle in the water is ever with me and as that is, so will be the memory of this honor you have done me. I wish to thank you all and especially I wish to thank the kind friend who has so interested himself as to bring about the honor you have done me to-night."

Having recited these simple words in the Indian tongue and with the medal of the Royal Humane Society pinned to his breast, the brave Indian, Jacob Chippis, stepped from the platform of the A. O. U. W. hall last night and took his seat among his friends and kinsmen in the audience who had journeyed from Seattle to be present to witness the honor done to their comrade.

Jacob Chippis, an Indian of the Nitat tribe of West Coast Indians, last July made an heroic effort to save the life of the members of his family who, with himself, were overturned in their craft in the waters near Vancouver. He remained in the water for 9 hours, making almost superhuman attempts towards the rescue of his drowning family, two of whom he eventually saved.

The bravery and self-sacrifice of the Indian were brought before the notice of the Royal Humane Society by Rev. A. E. Roberts, pastor of the Victoria West Methodist church, with the result that the intrepid hero was awarded the society's bronze medal for bravery.

A condition of the presentation being that it be made before a public audience, advantage was taken of the Baptist rally in the A. O. U. W. hall last night and that event chosen for the decoration as Mr. Chippis was at the moment able to come from Seattle for the purpose.

The Rev. Christopher Burnett in opening the rally, introduced the Rev. A. E. Roberts, who ascended the platform accompanied by the Indian, Jacob Chippis, Captain A. J. Dallain, representing the Royal Humane Society and E. Nicholas, Methodist Indian missionary, who acted as interpreter.

Mr. Roberts, in a few simple and touching words, related the story of the Indians' bravery saying, "Mr. Chairman, Ladies and Gentlemen. Some of you remember last July in our waters near Vancouver, a hero performed a heroic act. I interested myself in the matter and was successful in obtaining the Royal Humane Society's bronze medal for presentation to the hero, and it is to be presented to him to-night by Captain Dallain."

Mr. Roberts then read an account of Jacob Chippis' heroism and introduced the brave man to the audience which received him with round after round of tumultuous applause.

## BESSIE ABBOTT IS A GREAT ATTRACTION

Talented Siger Who Comes Under Victoria Musical Society Has Magnificent Voice.

Bessie Abbott, who appears here under the Victoria Musical Society, on the evening of Friday, May 8th, comes highly recommended. A success artistically, socially and financially was the appearance of Bessie Abbott in Colorado Springs when she appeared there in October last, for she well deserves the flattering reception that has been given her everywhere she has appeared this season.

Her voice is exquisitely cultivated; it is mellow and sympathetic and its peculiar sweetness is especially evident when singing softer legato passages. Her upper register notes are as clear as a bell and as flexible as those of a bird and at times when she sings with the full volume of her voice there is no mistaking the fine operatic quality. One has only to hear her sing the mad scene from "Lucie" to realize that Miss Abbott in a few years will rival Benrich.

Hans Dressel, the cellist, who will appear with Miss Abbott, comes most highly recommended. The London Times has the following reference to his work:

"Mr. Hans Dressel displayed no little technical skill and musical taste, while in choosing a sonata by Valentin and a movement from Schumann's concerto, as well as a transcription of a lovely ballet air from Gluck's Orpheus, he showed himself anxious to avoid the beaten track, although the names of various popular writers for the instrument were on his programme. His tone is of good quality, and he made a decided success."

—Largest stock of wallpaper in the city, 2½c. up. C. H. Tite & Co., corner Yates and Broad.

## DR. EATON ON CHURCH WORK

VISITING DIVINE  
ADDRESSED MEETING

Grand Baptist Rally Held in A.  
O. U. W. Hall Last  
Night.

A grand Baptist rally took place last night in the A. O. U. W. hall, Rev. Christopher Burnett presiding. Before proceeding to the regular business, the presentation was made to Joseph Chippis, an Indian of the Nitat tribe of West Coast Indians, of the Royal Humane Society's medal for bravery. A full account of this is given in these columns.

At the close of the presentation the audience heard a solo from Miss Sheritt, and the chairman then introduced to the large audience present, which almost filled the A. O. U. W. hall, Rev. Charles A. Eaton, D. D., of Cleveland, Ohio.

Rev. Mr. Eaton in a short address chose for his subject "The place of the church in modern life." He said religion was the determining factor in human life. The best religion was the Christian religion. The normal expression of the incarnation of the Christian religion was the Christian church. These were the facts that were back of the church: The question for consideration was how can the church become efficient as an uplifting influence in modern life. There was no doubt the church had entered into a period of temporary failure, of comparative failure. The reasons for this were both inside and outside the church itself, but to sum it all up, modern life had changed with incredible rapidity, while the church had remained invincibly conservative. There was, however, an awakening knowledge evident throughout the church world, and an attempt to readjust the life of the church to the life and the conditions with which it was surrounded. "I see no reason why in this century the church should not regain her lost prestige and achieve a place of more real leadership than ever before," he said.

Rev. Mr. Eaton is pastor of Euclid Avenue Baptist church, Cleveland, Ohio. He is a Canadian by birth, having been born in Cumberland County, Nova Scotia. In 1890 he graduated from Acadia university, N. S., and from Newton theological seminary three years later. His first pastorate, after graduation, was at Natick, Mass., and his second at Bloom street church, Toronto, from where he was called to his present pastorate. He is touring the country in order to acquaint himself more fully with Canadian conditions.

Rev. W. T. Stackhouse, superintendent of Baptist missions for the four western provinces, was introduced to the gathering as the chairman, and spoke shortly along general lines of church work. He is travelling in British Columbia at present in the interests of Baptist missionary work, and expressed the pleasure that his work had been so arranged as to bring him to Victoria at this time and enable him to be present at the large rally last night and to meet so many active and earnest church workers.

Court Victoria of the Ancient Order of Foresters will meet to-morrow evening at 8 o'clock sharp, when several candidates will be initiated, and a report from the re-union committee will be presented. After the meeting the usual monthly social dance will be given, it being the last one for this season.

## THE NEW THOUGHT.

Many Attended Lectures Given by  
Prof. Knox Yesterday.

Last evening the Y. M. C. A. hall was crowded to the doors to hear Prof. M. F. Knox's talk on Adaptation. Twenty children were delineated upon the platform and told where their success in life lay for them; he said in part:

"The question all want to know is 'What can I do?' All are studying horses, dogs, hogs, but very seldom is there one who studies 'man.' Every pupil in every school wants to succeed. I see in your city a great change in locomotion, automobiles taking the place of horses. I wonder if you would change your teaching as rapidly. The first lesson of life is for the individual to learn what to succeed in. Not 8 per cent of the people in business succeed. Victoria started have succeeded. The rest come and go like the leaves in the grass. All lines of teaching have forever been to keep the students in line with what was taught yesterday and yet to-day it may be useless. Long before Marconi used wireless messages in ancient times mental telepathy was used for healing. To-day at 3 p. m. 'The Freedom of Woman' will be the subject. To-night at 8 the lesson lecture, 'How to Overcome Death and Live Here Forever,' will be given. Prof. Goshorn will appear at both lectures.

The person who has once experienced the pleasure of a cup of delicious 'Salada' Tea—that feeling of satisfaction that its purity and flavor guarantee—is not easily persuaded to accept a substitute.

**BRITISH AMERICAN TRUST CO., Ltd**  
CORNER BROAD AND VIEW STREETS, VICTORIA, B. C.

TWO UMPIRES  
FOR BALL GAME

NEW SYSTEM IS TO  
BE INTRODUCED HERE

Doc Haynes and Frank Jewell  
Will Officiate Saturday.

At the opening game on Saturday next at the Oak Bay park, the double umpiring system will be introduced. This system has been used by the eastern leagues at their more important games for several seasons and has been found by far the most satisfactory way of conducting the game.

Under this arrangement one umpire looks after all base decisions, making it his business to be as near the runner as possible when he arrives at a base, thus avoiding any wrangling over close decisions.

The second umpire on the other hand devotes all his attention to deciding on balls and strikes, standing directly behind the catcher at all times throughout the game. Not being called upon to watch the bases at any time his attention will not be distracted from his part of the work, enabling him to do far more satisfactory work. It has been found that in games in which this system is used there is far less wrangling with the umpire than under the single umpire system, the games being also played in better time.

Players as a rule do more or less kicking against decisions given by an umpire, but under the new system there is little chance for anything of this sort as the umpire being right over his work can be more accurate and consequently has his decisions questioned far less than under the old system.

The umpires who have been appointed are two experienced baseball men, Doc G. H. Haynes, who formerly played with the local team and has had considerable experience at the game and thoroughly understands the rules, will fill one of the places. The other will be looked after by Frank Jewell, formerly a manager and treasurer of the Victoria nine. He has had no little experience in baseball, has on many occasions umpired games in this city and should make a most competent handler of the indicator.

That the Seattle Imperators who play here on Saturday are a first-class team, was plainly shown by the result of their game at Ballard on Sunday last when they defeated the home team by a score of 2 to 1.

Their fielding in this game was perfect, not one man making an error of any kind. If they can duplicate this performance here on Saturday local lovers of the game will see a decidedly good game, for errorless games are few and far between and are highly appreciated by the fans.

At any rate it is quite evident that the local team will have to play their best in order to hold their own with the strong bunch of players on the visiting team.

## LOCAL TEAM IN SHAPE.

The players in the Victoria baseball team are rapidly rounding into form and with a couple of more evening practices during this week they will be in very fair form for their first game on Saturday next. Sunday's practice was devoted mostly to batting and signal work, at which the players must become much more proficient before they can expect to make any particular showing against visiting teams such as the team they will have to go up against this week. The Imperators, who will be here on Saturday, are a fast bunch of ball players and are the advantage of having played together for the past month. It is in this particular that the local team will be somewhat handicapped as they have never really played a game together, consequently team work is practically

nil. It will take a couple of games to put the boys right in line but before the holidays arrive the nine should be in the finest of condition.

After this evening's practice the team will be picked and this team will be kept intact as near as is possible for the season.

All hands are requested to be on hand in their new uniforms to-night and Thursday evening at 6:30 o'clock.

## CRICKET.

## BUILDING A PAVILION.

The pavilion is being erected for the Albion Cricket Club at Beacon Hill, and practices will commence at once. For some time the club members have been trying to make arrangements to erect a pavilion in which to store their paraphernalia, but it was only a few days ago that the necessary permission was obtained. The result will be that a pretty little building will adorn that part of the park on which the Victoria club used to play and which has not since been used for any purpose.

There is a great advantage in having several clubs in a place the size of Victoria. Not only are these matches arranged between the clubs but there is a healthy rivalry between them that encourages practice and there are more men who play in first eleven.

It is said that the new Albion Club will have a first class eleven. Several of their men are excellent forms with both bat and ball, and if they practice hard they will very likely give the Victoria club a splendid game.

## LAWN TENNIS.

## GORE REGAINS TITLE.

London, May 5.—A. W. Gore, the British player, yesterday recaptured the championship in the covered court tennis contest, which has been in progress at the Queen's Club here. He defeated the holder of the title, A. F. Wilding, in a game lasting four days ago Gore defeated C. P. Dodge of Colorado Springs in the semi-finals.

## ATHLETICS.

## C. A. A. U. STRONG IN B. C.

"C. A. A. U. is strong in British Columbia, and is getting stronger every day. The A. A. U. and the Federation haven't a chance to beat the Canadian Union out there," said Ed. Wettlaufer, of Berlin, who returned to Toronto from a trip to the Pacific Coast recently. Wettlaufer was looking over Denver, Salt Lake City, San Diego, Los Angeles, Kansas City, Tacoma, Seattle, Victoria and Vancouver. He says sport in booming out on the Canadian Pacific Coast. James Sullivan, of the American Union, Wettlaufer says, is flooding the West with A. A. U. and Federation literature, but the newspaper men are publishing it in the waste paper basket.

Mr. Wettlaufer says the Pacific Coast Y. M. C. A. are strongly opposed to Sullivan, and have allied themselves with the Vancouver Y. M. C. A. and snap their fingers at the autocrat of American athletics.—Toronto Dispatch.

## BILLIARDS.

## SUTTON BEATS HOPPE.

Chicago, May 5.—Geo. Sutton last night defeated Willie Hoppe in the finishing bill of 1,500 points, 13-2 ball line billiard match. The final score was Sutton 1,500, Hoppe 1,200. In last night's game Sutton ran 523 points, while Hoppe made 500. Sutton's grand average was 32.28-46, against 25.42-46 for Hoppe.

## FRENCH CHAMPION AT WORK.

New York, May 5.—Lucien Rollé appeared to advantage in a billiard match last night at Daly's billiard academy, when in an exhibition match with Ferdinand Foggengberg he averaged 28.10-15 in a 400-point match. The French champion played a splendid exhibition of 18.2 ball-line billiards, and won by a score of 400 to 252. Rollé's best run was 80, while Foggengberg averaged 18, with 70 as his best single effort.

## THE KENNEL.

## SEATTLE'S SHOW.

Victoria dogs will be very well represented at the dog show which opens in Seattle on Wednesday morning. While the fact that several of the best dogs have been sold will somewhat weaken the prize list for this city, yet there are

some winners left and their owners are expecting to gather in a few of the cups. A Seattle paper speaking of the show, says:

Seattle's annual bench show opens at Dreamland rink next Wednesday and the indications are that the show will be one of the best ever held on the Pacific coast. According to Secretary Bailey, the entry list is unusually large this year and close to 300 blooded canines will be out for ribbons when the show opens.

The aristocratic dogs that will be beached at the Seattle show come from all over the West. Many of the entries have already provided their class at the Oakland, San Francisco, and Portland shows while quite a number of unknowns will endeavor to wrest the blue from the present title holders.

Portland's recent show was pronounced to be one of the best ever held in the Northwest and the Seattle affair will be even better. There were 212 dogs at the Oregon exhibit, while there will be about 270 at the Seattle show.

Alredale terriers will be one of the features of the coming show. Formerly the collie class held the palm, but the Alredales have burst into the limelight with a vengeance this year and the collies have been relegated to black sheep. The Alredale entry list shows thirty-seven blooded terriers, while only thirty-four collies have been registered. The Bellevue kennels, of Seattle will show some Alredales that won prizes at Oakland, San Francisco and Portland.

The English setter class this year is not particularly strong although what dogs are entered have shown class. Thirteen Irish terriers, including Mrs. G. W. Miracle's two entries, J. C. Washington's Pluto, and Capt. E. E. Calne's Dacring Magic, will be beached. N. E. Newman's Diana, undefeated and fresh from Alaska, will be shown in the Gordon setter class.

The pointer class will contain some strong entries. H. N. Pabst's Mason King, will meet C. B. Graves' Walla Walla Rush, Hansen's Diamond Spot, the well known ribbon winner, and others. Some interesting competition is promised.

Edgewood Advance, a California dog, should be one of the star performers in the bulldog class. Stone's Alaska Apollo, will also figure strongly in the competition. In the bull terrier division, Israel, of Olympia, will have a formidable entry.

In the collie kennels will be seen Glen Tana Squire and Glen Tana Sybil, owned by T. S. Griffith, of Spokane. Arthur Murphy, of Seattle, will have some strong contestants in this division.

John Bradshaw will do the judging. The show will be formally opened at 10 o'clock Wednesday morning and the trophy cups have been offered by J. Redelsheimer, Charles Purcell, Al. Hambach, Same Hyde, William Sutherland and others.

## LACROSSE.

## PROSPECTS BRIGHT.

On Saturday the Vancouver News Advertiser published the interviews with prominent lacrosse men on the prospects for the coming season. The following are two that will be of some interest locally:

"President Murray, B. C. Lacrosse association: Prospects are of the brightest, and every team will be knocking at the door. All the teams in the league will have strong line-ups and I think the race will be one of the most exciting we have had here for several years. Every leader has informed me that he is perfectly satisfied with the prospects, which means that New Westminster will not make a runaway race of it this season. The players in the British Columbia Lacrosse association are classy, and in my opinion, with Victoria in line, we will have a good year of lacrosse. The Capitals are going in strong for the game this season, and the team will certainly be the strongest that has ever represented the club. Vancouver will have two good teams, while New Westminster will have the same line-up again this season."

"All of the clubs are ready to break into the game. The players are eagerly looking forward to the first match, and with everybody in fighting trim, look out."

President McGurn, Victoria Lacrosse club: "I think it a little too early to say what Victoria will do in Lacrosse this season, but the feeling here is that the Capitals are about due to win the pennant. We have a better start this year than ever before, and if enthusiasm counts for anything Victoria will be running close with the other teams. Stanley Peele is captain of the senior team, and he has a number of older hands associated with him in getting the best material out to practice. Sam Lorimer, and probably his brother Walter, will play with the team again, the latter taking charge of the defence, and Stanley Peele on the home. We have a number of young players who, although inexperienced, will, I think, make a good showing in the senior ranks this season. We may not win the pennant, but you can take it from me that we will make the other teams hustle in both senior and intermediate divisions."

## THE RING.

## FRANK LAVIGNE.

Yesterday afternoon Frank Lavigne, a brother to the champion Kid Lavigne, called in at the office. He is here on a flying visit and expects to be present at the match this evening. He is booked to referee the mill between Harry Krant and Guy Buckles at Port Townsend at the end of the week. The winner of that bout will probably meet the winner of the Sullivan-Koesel fight at San Francisco.

## BRADY-MERRIFIELD.

Billy Brady intends to use his old tactics this evening in his fight with Merrifield. His plan is to open up easily and fire his man out, winning in about the eighteenth round. He will stand any amount of pounding without turning a hair. His head is as hard as a rock and there are a number of the lads who are putting their faith on the heavier man.

Kid Merrifield will weigh in at about 125 pounds, but what there is of him is tough sinew, and he looks as if he could stand the full twenty. Report says that he is a hard hitter and has a skillful defence.

As preliminaries, Jack Arnold of Victoria, will go six rounds with Cyclone Scott, of San Francisco, and another six-rounder will be that between Billy

Hill and Tom Knockton. The last mentioned is an amateur bout with a medal as the reward for the winner. The probability is that there will be a big attendance at the A. O. U. W. hall to-night to see the fun.

## YACHTING.

## CANADA'S CUP FLEET.

The entire fleet of Canada's Cup challengers of 1907 has now new owners. Crusader, Vice-Commander of Nicholas sloop, which gave Adele a hard chase for the championship, is the last to be sold. She has just been purchased by Messrs. T. K. Wade and George Lamont. She is fitting out in Oakville now, and will be raced extensively during the coming season. Her new owners have been identified with the little sloop Enid for the past couple of seasons.

Crusader was designed by the famous Wm. Fife, framed up in Scotland, and planked at Oakville last spring by Capt. Andrews.

The other Canada's Cup challengers will have new features this year. Mr. Norman Gooderham bought Adele last fall, and through the winter she has been adorned with a shining mahogany cabin top that matches the piano-casement of her body. Alleen, which Norman Gooderham sailed in the Canada's Cup trials last year, will be sailed by George Gooderham.

## THE OAR.

## TROUBLE AMONG ARGONAUTS.

There is trouble among the Argonaut Olympic crew, and it is so real that it threatens to disrupt the eight. The stake this year is too important to let personal feelings spoil Canada's chances in the rowing line, says the Toronto News, and it is a question for the heads of the Argonaut Club to look into the matter and straighten it out. Moreover, while the eight is an Argonaut one, it will represent the Canoe Club of the city, and the members win at St. Catharines in the trial, and thus the trouble passes beyond the club and reaches the entire rowing world in this country.

Phil Boyd, one of the very best men in the boat, has announced that he had decided not to row again this summer, and that he was through with the game. In view of the fact that Boyd worked hard and faithfully all winter on the machines, with the object of making the crew, this announcement is rather startling.

While Phil did not care to go into details when making the announcement, it was learned elsewhere that at the annual-at-arms last week, the argument between Coach Joe Wright and one of the crew went beyond words.

## WHERE TROUBLE LIES.

There is trouble all right, and that little passage was only the result of a growth. Other resignations would not occasion a great deal of surprise. The trouble seems to lie in the idea several of the eight have that Joe Wright is keeping his son George in the boat, and the general opinion among them is that he is not the best man available by long odds. Anyway, there is trouble on, and it is the business of somebody to make peace, and that at once. Some of the men have even gone so far as to suggest that Fred Thompson be asked to coach the eight.

## GENERAL NOTES.

When asked if he was likely to win the boxing match this evening in the A. O. U. W. hall, Jimmy Brady intimated that he was the brash horse.

## RADIANT WOMANHOOD.

The glory and satisfaction of beautiful womanhood can be known only to those possessing the unlimited advantages of health. No weak woman can be happy or enjoy half the pleasures of life. Pallid cheeks, sunken eyes, exhausted nerves, all tell of a terrible struggle to keep up. What the weak woman needs is Ferrozene; it renews, restores, and instantly—it's a "woman's remedy"—that's why. Ferrozene makes women strong, plump and healthy because it contains lots of nutriment, the kind that forms muscle, sinew, bone and nerve. Vitalizing blood courses through the body, making delightful color, happy spirits, and womanly strength. Fifty cents a box—Ferrozene in any drug store.

VICTORIA DOGS ARE  
GOING TO SEATTLE

Bench Show Opens in Sound City To-morrow Afternoon.

A number of Victoria dogs are being taken over to Seattle this evening for the Kennel Club bench show, which opens in that city to-morrow. While a number of the regular exhibition will not be represented there several others who have not been in the habit of exhibiting outside of this city will have dogs there.

Among those who will be exhibiting are J. A. Creighton, who is, of course, showing cocker spaniels; Frank Turner, Gordon setters; Mrs. Wallis and Dr. Mensies, Irish setters. Strange to say, so far as can be ascertained, no English setters are to be shown from this city.

## PORT HOOD MINES.

Halifax, May 5.—A conference took place yesterday between the Port Hood mine management and the men, with the result that a temporary settlement was reached. Both parties to the dispute agreed to refer their differences to a board of conciliation, and the men will return to work to-day.

## Run Down

If you are all run down, easily tired, thin, pale, nervous, go to your doctor. Stop guessing, stop experimenting, go direct to your doctor. Ask his opinion of Ayer's non-alcoholic Sarsaparilla. No alcohol, no stimulation. A blood purifier, a nerve tonic, a strong alterative, an aid to digestion. S. C. Ayer & Co., Lowell, Mass.

ANNUAL CRUISE OF  
VICTORIA YACHT CLUB

May 30th and 31st Set for  
Event to Take  
Place.

There is still a hitch in the matter of a site for the new building of the Victoria Yacht Club. This is what has been delaying matters for several months past and it still crops up. The meeting of the management of the club went into the matter thoroughly last night and it is thought that a solution will be arrived at within a very short time. A meeting of the club will be held on the 13th instant and on that date it is expected that there will be something definite to report.

A club cruise has been arranged for the 30th and 31st of this month. It is hoped that all members of the club will be able to attend this initial cruise and preparations with that end in view will be made. A good many of the members have not yet provided themselves with yachts, some are building them, while others joined the club just because they were nautically inclined yet having no intention of getting a craft for themselves. Arrangements will be made to take those members who wish on the cruise, and the matter will be discussed at the next meeting more fully.

The committee decided that the club would do everything possible to add the Oak Bay Boat Club in their opening regatta on the 9th inst. Those who own motor boats will try to attend, and a number of them expect to enter the motor boat races, two of which have been arranged.

FIRST LACROSSE GAME  
TO-MORROW EVENING

Victoria West Will Take Issue  
Against the Bays at Baseball Grounds.

It is a long time since there has been as much enthusiasm in lacrosse circles as is being shown this year. Great preparations have been made for the opening of the season and the members have had the double incentive of the probability of securing a place on the senior team as well as winning for their own club. This has kept them training hard and the result at the opening game to-morrow will be readily seen. The play will commence sharp at 6:30 at the Oak Bay grounds. The baseball men very good-naturedly allowing the lacrosse players the use of the grounds until such time as the Royal Association have their ready.

There will be a fast game well worth watching to-morrow evening. There is a good deal of rivalry between the teams and it is a sure thing that every player will do his utmost to bring victory to his own side. There is likely to be better combination than is usually shown at the opening game as the boys have been practicing regularly and they have been not only getting in the shooting but have been practicing the combination attack and defence.

VICTORIA LADIES WON  
GOLF MATCH YESTERDAY

Six Local Players Each Won  
Her Game Against  
Seattle.

As was expected by everyone, the Victoria ladies won the team game against Seattle yesterday afternoon on the Oak Bay links. The course was in excellent condition and the play was most enjoyable. A large number of members of the Victoria club watched the play throughout with a good deal of interest. The following was the result of the games:

Mrs. Langley beat Mrs. Carson, 5 up 3 to play; Miss Violet Pooley beat Mrs. Lindsay, 6 up 5 to play; Miss Combe beat Miss Collins, 3 up 7 to play; Miss Reade beat Miss A. Turner, 4 up 2 to play; Miss E. Tilton beat Miss K. Garrett, 10 up 8 to play; Mrs. Burton beat Mrs. Strout, 7 up 6 to play.

The local six are playing Tacoma ladies this afternoon.

Visitors for Tournament. Almost all of the visiting golf players are here. Many of them are bringing their automobiles with them, or coming in their yachts. Two hundred at least are expected to be here by to-morrow. Chester Thorne came over in his beautiful steam yacht El Primers, which is tied up opposite the Empress hotel, and is the admiration of all who pass that way.

Mr. Adams, of Seattle, brought over his Packard car and went up to Alberni a day or two ago, leaving here at 8 in the morning and reaching Alberni the same evening at 7. He will take part in the tournament to-morrow. The mowers and rollers are going day and night in order to prepare the grounds for the great event.

## TORONTO BUYING POWER.

Toronto, May 5.—The city council by an unanimous vote decided yesterday afternoon to ratify the agreement by which Toronto buys 10,000 horsepower from the Hydro Electric commission. Hon. Adam Beck and those associated with him were complimented on getting cheap power for Ontario municipalities.

If you are all run down, easily tired, thin, pale, nervous, go to your doctor. Stop guessing, stop experimenting, go direct to your doctor. Ask his opinion of Ayer's non-alcoholic Sarsaparilla. No alcohol, no stimulation. A blood purifier, a nerve tonic, a strong alterative, an aid to digestion. S. C. Ayer & Co., Lowell, Mass.

BETTER SYSTEM OF  
SCAVENGING NEEDED

That is the Report of a Special  
Committee to City  
Council.

The outline of a plan for a more effective scavenging of the city was presented to the city council last night by a special committee appointed for the purposes, and the recommendations adopted. These include adoption of more stringent regulations regarding the keeping of back yards in sanitary condition and the disposal of garbage by dumping it into the ocean at a sufficient distance from land that it will not return to become a nuisance. To carry out this latter idea the building of a new scow, the chartering of a tug, the improvement of the present city wharf between Telegraph and Herald streets, and the erection of new wharfs in the James Bay district and in Victoria West are all recommended. It is pointed out that the capital required for such a scheme would be small, and to provide it and also for a better system of scavenging it is proposed to divert the \$24,000 voted last January to the purpose.

It will be remembered that just before the last municipal election Mayor Morley presented a very pretty scheme to the electors providing for the erection of an incinerator by means of which all garbage was to be destroyed. When the matter was looked into by this year's council, however, it was found that the cost of such a plant, for a variety of reasons, would be much greater than the people had been led to believe it would be. In addition it was found that it would cost about \$0 cents per ton to destroy garbage by this method, while it can be disposed of by dumping into the sea at about 25 cents per ton.

The report of the committee adopted by the council was as follows: "Your committee appointed to report on the garbage and scavenger question, beg to suggest and recommend as follows: The calling of tenders for a larger scow, say 75 feet long by 20 feet beam. Alteration to and extension of the present city wharf situated between Telegraph and Herald streets, to provide better and cleaner facilities for loading. Calling for tenders for towage of garbage to a distance from shore sufficient to prevent its return and become a nuisance. We estimate the handling of our garbage under present methods costs the city about 25 cents per ton. The average quantity handled and towed daily to be about 50 tons. For the present we would suggest securing the services of a tug of sufficient weight and horse-power to handle the larger scow by contract as preferable to the city building and operating a steamer.

"Plans and specifications of suggested extensions to present wharf, if approved by your board, should be at once sent on to Ottawa for consideration of the departments of public works.

"The tender for a new scow should be called for at once as the scow now in use is inadequate and requires overhauling, and could then be used as a reserve scow. To facilitate hauling it is very possible that the city may find it necessary to construct a dock on James Bay end and one at Victoria West, near Line Bay. More stringent measures may become necessary to insure regularity in the cleaning of back yards of refuse and garbage for sanitary reasons.

"We would suggest the diverting of the money voted under the incinerator by-law to the scavenging of the city by the method recommended in this report. The water facilities for disposal of our garbage is, in our opinion, at least for a long time to come, the most economical, and calls for small capital expenditure and a consequent minimum charge for maintenance. A small charge for each cartload dumped on the city scow is recommended."

## WAGNER TO TOUR AMERICA.

Son of Famous Composer Will Lead Philharmonic Orchestra of Berlin.

New York, May 4.—Negotiations, it is announced, have been entered into with Sigfried Wagner, the son of the famous composer, Richard Wagner, for a tour of the principal American cities, beginning in October.

Herr Wagner for his American engagement will conduct the Philharmonic Orchestra, of Berlin, Germany, which is composed of sixty-five musicians.

Herr Wagner will also be accompanied by Frau Wagner, his mother, and four soloists, who will be heard in selections from his own composition. It is understood that the contract calls for not less than forty concerts, with a farewell musical festival at Madison Square Garden. A feature of the farewell will be the aug-

## SUNSHINE

Did you pay that furnace pension last winter? Did you fill up the bins for your defunct heating institution to play with? Are you now blaming the house walls, windows, cracks—anything but the right thing—for the winter's "heavy sighs"?

You wouldn't wear old clothes, wouldn't hire old men, wouldn't use an old machine—why go on paying the pension for that old furnace in your cellar?

We recommend that this very week you inspect the furnace display at the heating store in your town. We advise you to look for the furnace with Sun-Pipe Gaskets (long lasting), with Straight, Two-piece Fire-pot (continuous heat-energy), with Large Radiator (quick circulation), with Automatic Gas Damper (gas diffuser—heat retainer), with Two Flue Doors (easy cleaning), with Large Dust-pipe (no dust in face or cellar), with Belled Joints (permanent service), with "Sunshine" and "McClary" on Large Feed-door (thoroughness—61 years' experience).

You can secure the cost of installing a "Sunshine" Furnace in your home by consulting

# Ocean and Coastwise Shipping

Movements of Local Vessels—Trade Expansion in B. C. Waters—  
Cleanings of Interest From the Seven Seas.

## NANOOSE TOOK WATER TO-DAY

### NEW TUG LAUNCHED AT ESQUIMALT SHIPYARD

Will Be Used to Tow Car-  
Barge on the  
Gulf.

This morning at Esquimalt the new tug Nanoose, built according to the design of Capt. J. W. Troup, superintendent of the C. P. R. coast service, was launched at the yard of the B. C. Marine Railway company, the builders.

The launch was a complete success, but owing to the early hour, the state of the tide necessitating the floating of the vessel before 5 o'clock, few were present beyond the workmen.

All the machinery for the tug has been made at the local shipbuilding company's yard and will be fitted without delay, as the tug is required by the C. P. R. for use during the summer towing the big new barge car ferry built by the Victoria Machinery depot at a cost of \$25,000, between the Nanoose ferry depot and Vancouver.

Built according to the plans and specifications of Capt. Troup, the new steel tug is one of the most up-to-date and powerful vessels of her size on the north Pacific coast. She is about 90 feet long and has a big sheer and long-bow.

#### JUMPS TO DEATH.

Insane Sailor on British Barque Sues  
in Mid-Ocean.

While Isaac W. A. Olsen, a Norwegian able seaman on the British barque Kilmeny, jumped overboard from the quarterdeck and was drowned. The distressing incident occurred February 24th in latitude 48.15 north, longitude 85.45 west. Olsen was 23 years of age. Report of the suicide was made by Captain William Jones of the Kilmeny, which arrived at San Francisco from Antwerp last week.

Leaving Antwerp November 19th, Captain Jones' log shows that the barque had light winds to the equator, which was crossed twenty-five days out. The Kilmeny was seventy-eight days to Cape Horn. Off this point the vessel had a succession of southwest gales for twenty-one days. Variable winds were had to the equator, which was crossed April 2nd. Thence to San Francisco the vessel had light and variable north-northwest winds.

#### SPIRAL TUNNEL.

Cilley Originated It on the Peruvian  
Central Railway.

Resort to a spiral tunnel by the Canadian Pacific railway to reduce the heavy grade on the main line up Kicking Horse canyon in British Columbia recalls the fact that the originator of this clever plan for overcoming obstacles to railroad mountain climbing was the late Mr. William H. Cilley, an American engineer, says the Mining and Scientific Press. After long and costly efforts to find a way for the Peruvian Central railway on a feasible grade up the valley of the Rimac, the solution of the problem came as a flash of genius. Mr. Cilley turned into the mountain, lengthened the road by a spiral tunnel, and reduced the grade. The method was later applied for a like object in the St. Gothard tunnel in the Alps.

#### DOCK FOR ACAPULCA.

Mexican Journal Says Fine, But Neglected, Harbor is to Be Improved.

A Mexican journal states that a contract is being drawn up by the authorities and a new company for the construction of a new dock at Acapulco, on the Mexican Pacific coast. It will be of wood, but replaced within a few years by a modern iron wharf. The company guarantees to equip the harbor with all the apparatus needed for the convenience and safety of ships, including railroad tracks, cranes, buoys, beacons, lights, etc., and also to dredge channels.

#### WILL BE DRY-DOCKED.

Cottage City Will Be Surveyed at  
Seattle.

The steamship Cottage City, of the Pacific Coast Steamship Company, will go into dry dock this week to ascertain the extent of the damage, if any, sustained by going aground in Seymour narrows on her last trip to Alaska. The vessel is not thought to be seriously damaged, but the survey may prevent subsequent developments. The Cottage City will remain tied up until the opening of the summer excursion season.

## LATEST MOVE IN RATE WAR

### PRINCESS VICTORIA TO OPPOSE CHIPPEWA

Report That Crack Flyer Will  
Replace Princess Beatrice  
Saturday.

That a settlement in the rate war now in progress between the C. P. R. and the Inland Navigation Company on the Victoria-Seattle route is as far off as ever is evidenced by a semi-official report confirming the recent announcement to the effect that the Princess Victoria, the crack passenger steamship on the Canadian service, is to be run in direct opposition to the steamer Chippewa.

A dispatch from Seattle to-day says that the C. P. R. flyer will be placed on the run next Saturday, leaving the Sound port at 9 a. m. each day and arriving here at 1 p. m. and returning about the same time as the steamer Chippewa, making a call at Port Townsend. It is also reported that the Princess Victoria, which now leaves here in the morning and leaves Seattle at night will be withdrawn from the route, the Princess Victoria, with her superior speed and accommodation being counted upon by the C. P. R. officials to obtain the greater part of the traffic between here and Seattle in preference to the Chippewa. The Victoria will be operated at the cut rate of fifty cents and will be maintained, according to the Seattle story, on the run until the rate ends or the business decreases.

Local officers of the C. P. R. refuse to either confirm or deny the report, saying that any arrangements that have been made have not been officially conveyed to them up to the present. There is, however, a general belief that the programme outlined above may be followed. Some time ago it was stated that the Victoria would leave Seattle in the morning when she resumed and redecorated for the season, and this was looked upon as a final decision to carry the war into the enemy's camp and run in direct opposition to the Chippewa on the daylight schedule. Now, it appears, more drastic methods will be followed. The Princess Victoria, completely overhauled and redecorated for the season, being opposed to the Chippewa on a schedule that will enable the local boat to demonstrate her greater speed and general superiority in comparison with her rival.

The Princess Victoria is now having the bottom of her hull cleaned and painted at the B. C. Marine Railway company's yard, Esquimalt, and will be ready for service on Thursday. While there is a possibility that she will not take up the new schedule until next week, it appears certain that she will be placed upon it at an early date unless the unforeseen, in the shape of an amicable settlement of differences between the contending companies, happens.

### ASSOCIATION HAS NOT ABANDONED SARATOGA

B. C. Salvage Company May  
Be Engaged to Raise  
Wrecked Steamship.

There is still a possibility that the underwriters of the wrecked Pacific Coast steamship Saratoga, now ashore at Bushby Island, will make an attempt to raise the vessel and repair her, afterwards returning her to her owners. Some time ago it was announced in Seattle that the vessel was a total loss and bids were invited by the underwriters for the hull. Later it was decided to send Capt. Emilie Genereux and an expert diver to examine the wreck for the last time and report on the possibility, or otherwise, of saving her.

Capt. Genereux and the expert who are now in Seattle, stated to a Seattle interviewer yesterday, that there was no truth in report, denied by H. F. Bullen in last night's Times, to the effect that B. C. Salvage Company had bought the wreck.

It is believed that the steamship can be salvaged at a cost of \$25,000, and placed in an order equal to new at a similar expenditure or less, which would render her salvage worth while. Should the underwriters, acting upon the advice of Capt. Genereux, decide to save the vessel, it is more than probable that the local salvage company, which is really the only properly equipped concern of its kind on the Pacific Coast, will receive the contract to raise her.

## BABCOCK NOT YET REPORTED

### OVERDUE VESSEL OUT NINETY-FIVE DAYS

Uneasiness Felt for Coke-  
Laden Ship Coming From  
Australia.

The American ship W. F. Babcock, Capt. Sterling, which left Newcastle, N. S. W., on January 31st, for Grifton, B. C., with coke for the smelter at that place, is now 95 days out from the former port and some little anxiety is felt for her.

While shipping men do not think that the finding of wreckage on the west coast last month was connected with the Babcock in any way, they admit that she is making a very slow passage and that she may have been overwhelmed in some big storm at sea. The Babcock is an old vessel built of wood and there is always a possibility that, in the straining of her timbers in storm, the seams would open and cause her to founder.

The rate for re-insurance on the Babcock has not yet been advanced beyond 10 per cent, and it cannot be said that there is a great deal of anxiety felt for her at present. The Jas. Nesmith manager of the Victoria port to Crofton, B. C., enclosing weather of exceptional severity and the tugboats are looking for the Babcock's arrival off Cape Flattery at any hour. At the same time the age of the vessel and the heaviness of her cargo coupled with her tardiness in arriving have created uneasiness in many quarters.

The rate on the old Norwegian barque Adela, now 95 days from Tacoma for Valparaiso, has been raised to 50 per cent. The Adela is not making a very long passage but her age and other circumstances have been taken into consideration by the underwriters in increasing the rate. On the ship, Bangalore, 196 days out from Norfolk for Honolulu with coal, the rate has jumped to 45 per cent.

The manner in which coal has been taken fire in the hot latitudes, notably in the case of the United States depot's Cavite, Guam and Honolulu, where fuel has been consumed for the U. S. fleet, and the burning of the ship Arctur, Seattle at sea, have induced the underwriters to make the rate heavier. The British barque Indian Empire, Capt. Ward, 100 days from Montevideo for Sydney, Australia, has been added to the overdue list at 20 per cent. The Norwegian ship Bardowick, which left Lisbon for Acapulco on December 3rd and has not yet been reported, has also been added to the list at 10 per cent, and the barque Omertion, 91 days from Newcastle, Australia, for Junin, is also re-insured at 10 per cent.

#### MARINE NOTES

It is reported in Tacoma that the firm of Rothschild & Co., which recently acquired the Brown and McCabe interests in Portland, will operate a general stevedoring business in the Sound ports in competition with the International Investment Company which was recently formed by the merging of the three biggest stevedoring firms in the Sound and British Columbia ports.

The Pacific Whaling Company's station at Page's lagoon is temporarily shut down owing to the native fishermen leaving to engage in the salmon fishing on the Fraser. It is expected that it will be re-opened shortly when a number of Indians, including a contingent brought down from the west coast, will be engaged in dogfish fishing.

It is reported from New York that a big four-masted ship will be built to replace the ship Arthur Sewall, which was recently burned at sea. The ship, which will be built at Bath, Me., will be the first square-rigger launched in the United States since the Atlas was put into the water in 1902.

The Union steamship Camosun, Capt. Saunders, is due from the Portland canal and way ports at Vancouver to-night and will come here for passengers and freight to-morrow, sailing to-morrow night.

The Canadian-Mexican liner Georgia, Capt. Forbes, reached the outer wharf this morning from Chemalpus and is completing cargo for Mexican ports. It is expected that she will get away to-morrow.

The steamer Trader arrived this morning from Ladysmith with a consignment of coal for the C. P. R. wharf.

The R. M. S. Empress of China, which left Vancouver a day late, reached Hongkong on time yesterday.

The Canadian-Australian liner Aorangi is expected to reach port to-morrow afternoon from Australia.

The steamship Tees, Capt. Townsend, arrived in port this afternoon from Mosquito Harbor and way ports.

The steamship Lennox, under charter to the C. P. R., leaves Vancouver to-day for the Orient.

The Canadian-Australian liner Georgia is to-day undergoing her annual inspection.

## WASHINGTON TOWING BATTERED SCHOONER

Vessels in Sight Off Astoria—  
Eleven of Kelton's Crew  
Perish.

Astoria, Ore., May 5.—The steamship Washington has been sighted ten miles off this port with the waterlogged and damaged steam-schooner Minnie E. Kelton in tow.

Names of the Drowned.  
Newport, Ore., May 5.—Eleven of the officers and crew of the schooner Minnie E. Kelton, which was battered by a terrific gale on Friday night and Saturday, and finally driven on to Otter rock on Sunday, are known to have perished.

The dead and missing, the latter being undoubtedly dead, are: Walter Peterson, officer; Barney M. Vey, fireman; Svend Petersen, steward; B. W. Little and George Johnson, cabin boys; A. Elssonson, A. Koske, G. H. Jensen, O. Roskurest and F. Johnson, crew; C. R. Lund, chief engineer.

Injured: Andrew J. Nelson.  
Saved: Capt. James McKenna, M. Martin, mate; John Mortenson, second mate; James Carney, first assistant engineer; Walter Hoffman, officer; John Howland and C. D. Hansen, firemen; Anderson, W. Kaskensen and Andrew J. Nelson, crew.  
The Kelton was owned by P. C. Smith, of San Francisco, and left Aberdeen last Thursday. She carried no passengers. The vessel was built in Bay City, Mich., in 1894, and was brought around by Magellan strait. She was built of wood with a capacity of 503 tons net, and was 171 feet long, 35 feet in beam and 11.3 feet deep.

## WEST COAST SHIPPING REPORT

(By Dominion Radio-Telegraph)

Tatoosh, May 5, noon.—Cloudy; wind south, 18 miles; barometer, 30.03; temperature, 50. Out, barque Fresno, at 9:30 a. m.; schooner Gamble, at 11:30 a. m.

Cape Lazo, May 5, noon.—Partly cloudy; strong southeast wind. No shipping.

Point Grey, May 5, noon.—Cloudy; wind southeast. No shipping.

Tatoosh, May 5, 9 a. m.—Cloudy; wind south, 8 miles; barometer, 30.01; temperature, 48. No shipping.

Agassiz, May 5, 9 a. m.—Cloudy; raining; strong southeast wind. No shipping.

Cape Lazo, May 5, 9 a. m.—Cloudy; strong southeasterly wind. No shipping.

Point Grey, May 5, 9 a. m.—Cloudy; calm. No shipping.

(By Dominion Wire)

Carmanah, May 5, 9 a. m.—Moderate east wind; cloudy; sea smooth; barometer, 30.00. No shipping.

Cape Beale, May 5, 9 a. m.—Southeast wind; light rain; moderate sea. No shipping.

Clayquot, May 5, 9 a. m.—Light southeast wind; rain; sea moderate. No shipping.

San Juan, May 5, 9 a. m.—Steamship Tees, left 9 o'clock this morning, for Victoria.

#### TUGBOAT MEN ROBBED.

Chloroformed in Their Bunks Captain  
and Mate Lose Belongings.

Chloroformed in his bunk on board the tug Keros, as she lay in dock at Tacoma, Capt. James Hird, of Seattle, formerly first mate on the tug Blanche, of the Crosby Tow Boat Company, was robbed early on Sunday morning of everything of value in his possession. Mate Henry Brannagh, of the Keros, suffered the same experience.

Both captain and mate visited the manager's office in Tacoma, remaining until 10 o'clock Saturday night, and then proceeding to the tug and to bed. The following morning the steward found both men in their bunks, unconscious from the chloroform, administered with handkerchiefs which still covered their faces. Both men were violently sick after regaining consciousness. They lost watches, rings, blankets, shoes and money.

### A TEMPORARY FERRY ON CAMERON LAKE

One May Be Operated While  
Railway Grading is in  
Progress.

The E. & N. right-of-way from Nainaimo to Alberni has been entirely slashed out now, and Carmichael and Muirhead, the contractors on the Alberni end of the road, are busy at the clearing operations which are expected to be concluded in two or three weeks, when grading will be commenced at that end also.

It is reported that the C. P. R. intend placing a temporary ferry on Cameron lake, while grading operations are in progress there. The right-of-way runs close to the roadway at this point up the mountain, and as it will be dangerous for rigs passing along here while blasting and other work is in progress, it is believed a ferry will be placed on the lake until this section of the road is passed.

The death occurred this morning of Fred Turner, who was familiarly known about the city as "Fritz." Deceased was about 45 years of age, but no particulars of his life are known. The remains have been taken to the Hanna parlors. The funeral arrangements will be announced later.

## UP THE ISLAND IN AN AUTO

### FIVE HUNDRED MILE TRIP BY LOCAL MEN

A. H. Mitchell Tells of Fishing  
and Exploring Trip to  
Campbell River.

A combination of fishing and motor-ing is a wholly new idea, but, although it is rather novel it has many charms to attract and it is a pretty sure thing that its popularity will increase very day on two ago two of Victoria's citizens, Messrs. Chalmers & Mitchell set out together in their English car for a tour of Vancouver Island as far as it is possible to travel by motor.

Going first to Nanaimo they then turned aside from the main road at Parksville to visit Alberni. Of the scenery along that route they were enraptured, and of Alberni itself they speak enthusiastically. Mr. Mitchell, when interviewed this morning, and questioned regarding his trip, told of meeting one of the C. P. R. engineers at Alberni who told of their having five hundred men at work clearing the route and getting ready for the railway builders. Mr. Mitchell was much impressed with the agricultural possibilities of Alberni and also with the big timber he saw there. The fishing over there was tested and a few big fellows landed.

Returning to Parksville, the twain then set out northward over a good road to Comox, and from there farther north still as far as Campbell river within about six miles of Seymour Narrows.

Speaking of the road, Mr. Mitchell said that on the whole it was very good. There was, however, a rough spot just this side of Union Bay and above Oyster river there was a good deal of beach road which was very loose and on which they had to use the gear for a long distance. If these two parts were put in better condition and the Mill Bay road constructed, the trip would be an ideal one, the best anywhere on the North Pacific coast. Campbell river is almost 200 miles from Victoria and the distance across to Alberni is something like 40 miles.

At Oyster river the adventurers threw their flies but without result. They were afterwards told that they should have gone farther down the river and fished near the mouth where they would have been sure to make a catch.

They fished at Campbell river and caught some nice trout under the guidance of a local man. Speaking of the scenery, Mr. Mitchell said that he had seen nothing finer, even in Switzerland than the view of the mountains just above Comox as he was returning about 5 o'clock in the afternoon. The lights were playing on the snow-clad mountains and changing every few minutes, while a little farther to the right was the big glacier from which the Courtenay river draws its chief supply.

The whole trip was a most enjoyable one.

## SCALING GOES FREE IN SHOOTING CASE

Man Accused of Threatening  
Mrs. Kruse is Dismissed  
by Magistrate.

The stellar attraction in the police court this morning was the charge against Henry Dent Scaling of having threatened to shoot Mrs. Edward Kruse of 1911 Douglas street, Saturday evening last. After considerable evidence the case was dismissed, although the magistrate warned Scaling to keep away from the Kruse home in future. Scaling was defended by J. A. Alkman, while H. W. R. Moore, assistant to the chief of police, prosecuted. The first witness called was Mrs. Ernestina Kruse. She swore that Saturday night last she had gone out to the woodshed, and while there had seen a revolver pointing at her through a broken window, but did not see the face of the person holding it. The person had said that he had her now, and she thought the voice was Scaling, although she could not be sure. Scaling had threatened her before, and was in the habit of following her down town and making himself a nuisance to her.

In cross-examination, she said she had known Scaling for a year. He had several times wanted her to leave home with him, and when she refused he had threatened to kill her.

In re-examination she said that Scaling had written her several threatening letters which she had destroyed. The last one Scaling had thrown over the fence to her about three weeks ago. This was endorsed in a purse which she produced. Edward Kruse, husband of the last witness, was in the kitchen when the man threatened his wife in the woodshed. He heard his wife scream and had run to her assistance, when she had fainted in his arms. By the time he got to the front of the house the man had had ample time to escape.

Continuing, Kruse said that about seven minutes after the occurrence his nephew had seen Scaling come out of a nearby store and had run towards him. He had heard Scaling say to his nephew, "I want in your yard."

This nephew was not in court to corroborate this evidence, but a son of the house, Fred Kruse, was next called. He had seen a letter which Scaling had written to his mother threatening to harm her and bidding her farewell until they should meet in the next world.

Mr. Alkman asked for a dismissal. While the evidence might point suspiciously to his client, there had been no legal proof adduced, such as was absolutely essential in a case of this kind, where the liberty of the subject was endangered.

Mr. Moore said that in view of the man's previous threats and of Mrs. Kruse's recognition of the voice, Scaling should be found guilty. He did not want, however, to press for a penalty, but thought the man should be bound over to keep the peace. Mrs. Kruse should be protected.

The magistrate said the evidence was not satisfactory enough to convict Scaling.

**PAROLE OFFICER AT  
NEW WESTMINSTER**

Pays Annual Visit to B. C. Pen-  
itentiary—Investigating  
Complaints.

New Westminster, May 4.—Dominion  
Parole Officer F. P. Archibald arrived  
in the city yesterday afternoon for the  
purpose of paying his annual visit to  
the B. C. penitentiary, where he will  
investigate any complaints which con-  
victs may have to make and listen to  
any pleas for clemency which may be  
put forth by the inmates of the big  
penal institution.

Mr. Archibald annually spends sev-  
eral days at each of the places where  
penitentiaries are located, devoting  
all his time to the adjusting of mat-  
ters between the convicts and those  
in charge of them. Whenever he comes  
across a case where, in his opinion, a  
prisoner shows that he is desirous of  
leading a better life after once leaving  
behind him the garb of the lawbreaker,

Mr. Archibald looks carefully into the  
man's antecedents and record, and if  
he is satisfied that the repentant once  
is sincere in his intentions, he recom-  
mends that the convict be placed on the  
parole list, which means that the re-  
leased guest of the government is from  
that time to all intents and purpose a  
free man, with the exception that he  
has to report to the police at stated in-  
tervals and satisfy the authorities that  
he is not drifting back into his old evil  
habits. If at any time the police have  
reason to believe that a paroled man  
is committing, or conniving at, crime,  
he can be placed under arrest and com-  
pelled to finish out his sentence. Ac-  
cording to Mr. Archibald, only a very  
small percentage of released prisoners  
prove unworthy of the trust reposed  
in them.

DEFIANCE OF C. P. R.

The C. P. R. has thrown down the  
gauge to organized labor by giving  
notice to the effect that all its shops  
west of Port William will hereafter be  
operated on the "open shop" prin-  
ciple, and the men are seriously con-  
sidering the matter, while the public  
are anxiously waiting and watching  
with keen interest the result of this  
open defiance on the part of the rail-  
way company. Cranbrook Prospec-

tor.

NEW COMPANY TO

WORK TIP TOP MINE

Drifting Proceedings at 125-  
Foot Level—Prospects in  
Skylark Camp.

Phoenix, May 4.—One of the mines in  
the high grade belt that has been  
steadily working along for some  
months, having little said about it, is  
the Tip Top, in Skylark camp. The  
property is located in the vicinity of  
the Bay, May, Skylark and other well  
known claims in that camp, and so far  
the development has been decidedly  
encouraging.

The main perpendicular shaft of the  
Tip Top is now down about 150 feet,  
and drifting has been started at the  
125-foot level, the drifting being now  
in about 30 feet. Those in charge say  
that the face is in one of a good grade,  
and they are confident that they have  
a property in the Tip Top that, with  
adequate development, will join the  
steady shipping column.

H. V. Fuller, one of the large owners  
of the Bay, which has shipped—also  
valuable carloads of gold ore—is  
interested in the Tip Top, and is now  
in the east, in connection with Tip  
Top matters. A new company is  
being formed at Lincoln, Nebraska, to  
work the property and secure the  
capital necessary for development.

The company will likely have a  
moderate capital of about \$25,000. The  
Tip Top is equipped with an electric  
hoist, and the mining can be done in  
an economic and expeditious manner.  
Seven men are now employed on the  
property, two shifts being steadily  
worked.

On Saturday evening Signor Cecotti,  
Miss Emma Sehl, Frank Armstrong and  
Miss Russell gave a concert in the  
opera house. The house was not full  
because of inefficient advertising, but  
those present had a rare treat. Every  
number was perfect. Not the least en-  
joyable part was the playing of Mr.  
Russell, whose accompaniment blend-  
ed exquisitely with both the voice and  
the violin.

Social Notes.

Mrs. Hazell, Mrs. Ryan, Miss Mary  
Lawson and the Arden family and Mrs.  
Scriven came to Duncan on Saturday  
to attend the flower show.

Miss Emma Sehl, Miss McQuade, Mr.  
Frank Armstrong, spent Sunday in  
Duncan.

James Maitland-Douglass spent the  
week end in Victoria.

Mr. Elworthy was a passenger to  
Victoria on Sunday evening.

Miss Gertrude Macfarlane, who has  
been visiting Mrs. H. Dhu Morten dur-  
ing the last few weeks, returned to Vic-  
toria this morning.

CAR AS ISOLATION HOSPITAL.

Case of Smallpox Is Discovered at  
Squamish.

Armstrong, May 5.—A case of small-  
pox was discovered at Squamish on  
Tuesday morning by Conductor Bon-  
gard, of the freight train. The unfor-  
tunate patient is a young man who was  
travelling with his father and was  
walking up and down the platform  
when accosted by Bongard, who imme-  
diately recognized the disease. The  
patient was quickly placed in an empty  
car, which was turned into an isolation  
hospital and switched on to the old Y  
at the east end of the bridge, and the  
father is nursing his son. As every pre-  
caution was instantly taken there is no  
danger of the disease spreading.

DEER'S VISIT AT AN INN.

A deer which was being chased by the  
Mid-Cent Star Hunt took refuge in an inn  
at Charing Heath. The same animal fled  
into another public house nearby to escape  
its pursuers a month ago.

**VANCOUVER'S LENGTHY  
CRIMINAL LIST**

Case of First Woman to Be  
Tried for Murder in Ter-  
minal City.

Vancouver, May 4.—With the heavy  
list in the court records of Van-  
couver, the criminal assizes will open  
to-morrow, likely before Mr. Justice  
Morrison, and with Deputy Attorney-  
General MacLean as prosecuting at-  
torney.

There are four charges of alleged  
murder, six of alleged wounding with  
intent to murder, one of burglary, one  
of forgery and one of perjury.

The first case to be heard to-morrow  
will be three in one, the charges pre-  
ferred against the three Japanese, Ha-  
shimaki, Nakamura and Murato, of at-  
tempting to murder the jolly, home-  
sick-bound fireman as they passed the  
Japanese boarding-house on Powell  
street on New Year's eve. Frost, one  
of the firemen, was brutally slashed.

The first of the four charges of al-  
leged murder is against E. B. Bowen,  
who admits the killing of the Hindu,  
Adahla Singh, who Bowen says, had  
grossly misconducted himself.

The second charge of murder is pre-  
ferred against Roger Venetta, the  
negro accused of the murder of Cleve-  
ntine Nahu at Moodyville. The third  
is against Eva McDaniels. She will be  
the first woman to be tried for murder  
in Vancouver. The alleged crime fol-  
lowed the visit of George Black, a log-  
ger, the supposed victim, to Eva's  
house in the restricted district.

The fourth charge of murder is pre-  
ferred against O. O. Bulce, who does  
not deny that he fired the bullet which  
killed an aged man named Massender.  
Bulce says he intended to frighten an-  
other and that the bullet accidentally  
went through the wall of Massender's  
house.

All the other cases are familiar. This  
is the balance of the list:  
Rex vs. Street, wounding with intent  
to murder.

Rex vs. Nug Wing, the same.

Rex vs. Glathba, the same.

FARMERS AVERSE TO  
REMOVAL OF TRAIN

Agassiz Local Is Needed by  
Settlers Along Line—Peti-  
tion Sent to C. P. R.

New Westminster, May 4.—Strong  
feeling is being expressed by the resi-  
dents along the main lines of the C. P.  
R., who rely on the Agassiz local for  
their accommodation in regard to the  
removal of that train at an  
early date. The small way stations are  
the ones most affected, the local being  
the only train that permits settlers to  
reach Westminster, purchase supplies,  
and return the same day without incon-  
venience.

The farmers have now taken more  
active measures than mere passive ob-  
jection and have sent in a largely  
signed petition to the railway company,  
protesting against the withdrawal of  
the local this summer. The petition has  
been a large number of signatures, was  
sent to the officials of the company at  
Vancouver last week, and the farmers  
now anxiously await the decision of the  
magnates.

On Saturday evening Signor Cecotti,  
Miss Emma Sehl, Frank Armstrong and  
Miss Russell gave a concert in the  
opera house. The house was not full  
because of inefficient advertising, but  
those present had a rare treat. Every  
number was perfect. Not the least en-  
joyable part was the playing of Mr.  
Russell, whose accompaniment blend-  
ed exquisitely with both the voice and  
the violin.

Social Notes.

Mrs. Hazell, Mrs. Ryan, Miss Mary  
Lawson and the Arden family and Mrs.  
Scriven came to Duncan on Saturday  
to attend the flower show.

Miss Emma Sehl, Miss McQuade, Mr.  
Frank Armstrong, spent Sunday in  
Duncan.

James Maitland-Douglass spent the  
week end in Victoria.

Mr. Elworthy was a passenger to  
Victoria on Sunday evening.

Miss Gertrude Macfarlane, who has  
been visiting Mrs. H. Dhu Morten dur-  
ing the last few weeks, returned to Vic-  
toria this morning.

CAR AS ISOLATION HOSPITAL.

Case of Smallpox Is Discovered at  
Squamish.

Armstrong, May 5.—A case of small-  
pox was discovered at Squamish on  
Tuesday morning by Conductor Bon-  
gard, of the freight train. The unfor-  
tunate patient is a young man who was  
travelling with his father and was  
walking up and down the platform  
when accosted by Bongard, who imme-  
diately recognized the disease. The  
patient was quickly placed in an empty  
car, which was turned into an isolation  
hospital and switched on to the old Y  
at the east end of the bridge, and the  
father is nursing his son. As every pre-  
caution was instantly taken there is no  
danger of the disease spreading.

DEER'S VISIT AT AN INN.

A deer which was being chased by the  
Mid-Cent Star Hunt took refuge in an inn  
at Charing Heath. The same animal fled  
into another public house nearby to escape  
its pursuers a month ago.

## OFFICIAL PROGRAMME OF QUEBEC CELEBRATION

**Ceremony Will Extend From  
July 19 to 31—Highly  
Spectacular.**

The official programme for the Ter-  
centenary celebration has been issued,  
and is as follows:

Sunday, July 19.—The Association  
Catholique de la Jeunesse Canadienne  
Francaise will do honor to Champlain  
at the foot of his statue.

Monday, July 20.—Mounted heralds-  
at-arms and men-of-the-watch appear  
in the streets for the first time, costu-  
med as in the time of Champlain. The  
heralds will proceed through the city,  
stopping at the important places, and  
will make the official announcements in  
connection with the celebration, the  
arrival of official guests, the pro-  
gramme of the following day, etc.

Evening—The congress of the French-  
speaking physicians of North America  
opens.

Tuesday, July 21.—Arrival and recep-  
tion of official guests and of the French  
and United States fleets. Afternoon—  
First pageant on the Plains of Abra-  
ham. Evening—Concert in the drill hall  
and performance of Felix David's  
Symphonie Ode, "Christophe Colomb."

Wednesday, July 22.—H. R. H. the  
Prince of Wales will arrive in the after-  
noon on the battleship Renown, and  
land at the King's wharf. Evening—  
Military bands at Dufferin terrace, Vic-  
toria Park, and Boulevard Langelier.

Thursday, July 23.—Champlain Day.  
Afternoon—Arrival of Champlain in his  
ship, Le Don de Dieu, and procession  
from landing place to his statue, show-  
ing the history of Canada. Presenta-  
tion of addresses and other official cer-  
emonies. Evening—Illumination of the  
combined fleets and of the surround-  
ing country, and great display of fire-  
works on the Heights of Levis, opposite  
Quebec.

Friday, July 24.—Morning—Twenty  
thousand troops reviewed on the Plains  
of Abraham, and dedication of the Que-  
bec battlefields. Afternoon—Second pa-  
geant on the plains. Evening—Concert  
de Gala.

Saturday, July 25.—Afternoon—Gala  
performance of the pageant on the  
Plains. Lacrosse match by two cham-  
pionship teams. Evening—Concerts on  
the Terrace, in Victoria Park, and at  
Boulevard Langelier. Second perform-  
ance of "Christophe Colomb."

Sunday, July 26.—"Messe Solennelle"  
on the Plains of Abraham.

Monday, July 27.—Afternoon—Regatta  
in the harbor. Fourth pageant on the  
plains. Evening—Naval display at  
night by the ships of the fleets.

Tuesday, July 28.—Morning—Child-  
ren's fête and day fireworks on the  
plains. Afternoon—Naval and military  
gymkhana. Official ceremony at Vic-  
toria Park. Evening—Government ball  
at the Hotel de Ville.

Wednesday, July 29.—Departure of H.  
R. H. the Prince of Wales. Afternoon  
—Fifth pageant on the plains. Child-  
ren's fête and day fireworks at Vic-  
toria Park. Evening—Civic reception at  
the city hall.

Thursday, July 30.—Parade of Na-  
tional Societies and Canadian and other  
clubs and associations. Evening—  
Great display of fireworks at Victoria  
Park.

Friday, July 31.—Last pageant on the  
plains.

Order of historical procession through  
the streets, July 31.

1. The men-of-the-watch and heralds-  
at-arms.

2. Jacques Cartier, accompanied by  
his 110 sailors, preceded by a cross with  
the arms of France.

3. Francis I., King of France, and his  
court.

4. DeMonts, Champlain, Pontgrave,  
the three chiefs of the expedition, fol-  
lowed by the crew of the Don de Dieu.

5. Henry IV., of France, and the Court  
of France.

6. Dollard and his 16 French comrades  
at Long Sault.

7. Discoverers and founders of towns,  
Joliette, Lasalle, Maisonneuve, etc.

8. Cavalcade representing De Tracy  
with his suite, composed of 24 guards  
and four companies of the regiment of  
Carignan-Sallieres.

9. Duluth and the Coureurs de Bois.  
10. Frontenac, with Sovereign Council  
and his guards and staff, and the mili-  
tarian of Robineau, of Beccancour,  
of Iberville, and other chiefs.

11. Melle de Vercheres, accompanied  
by her brothers and followers, and  
groups of Indians.

12. Montcalm and Levis at the head  
of their regiments, the La Parre, Lan-  
guedoc, Beaurivage, Guyenne, Royal Rou-  
sillon, Berry, Marine troops, Canadian  
militia and Indian allies.

13. Wolfe and Murray and their regiments,  
Amherst, Anstruther, La-  
scelles, Kennedy, Bragg, Otway, Louis-  
bourg Grenadiers, Scotch Highlanders  
and Royal American.

14. Guy Carleton and the principal  
officers of the regular troops and the  
Canadian militia, defenders of Quebec  
in 1759.

15. De Salaberry and his 300 Volti-  
geurs at Chateauguay.

At the head of each group, pages will  
walk with banner, giving data and  
short description of group.

Scenes of the historic pageants on the  
plains.

First pageant—1535, Jacques Cartier;  
1st tableau, the Village of Stadaconne,  
1536, 2nd tableau, Jacques Cartier plants  
a commemorative cross on the bank of  
Canada. 3rd tableau, the carrying off  
of the Indian chief Donnacona. 4th  
tableau, Jacques Cartier at the Court  
of Francis I., giving an account of his  
discovery.

Second pageant—1603, Samuel de  
Champlain. 1st tableau, Champlain re-  
ceiving his instructions from Henry IV.  
1603, 2nd tableau, Battle of Lake Cham-  
plain (1609); Champlain's first meeting  
with the Iroquois.

Third pageant—1630, Mother Mary of  
the Incarnation, and the Jesuits. 7th  
tableau, arrival of the Hospitaliers and  
receiving his instructions from Henry IV.  
1603, 8th tableau, Battle of Lake Cham-  
plain (1609); Champlain's first meeting  
with the Iroquois.

Fourth pageant—1630, Mother Mary of  
the Incarnation, and the Jesuits catechizing  
the Indians.

Fifth pageant—1660, 9th tableau, Dol-

lard des Ormeaux and his companions-  
in-arms, at the Long Sault.

Fifth pageant—1665, Laval and Tracy.  
10th tableau, Mgr. de Laval, officially  
receives M. de Tracy, Lieut.-General of  
Louis XIV.

Sixth pageant—1670, 11th tableau, Dou-  
mont de Saint-Lusson takes possession  
of the western country in the name of  
the King of France.

Seventh pageant—1690, 12th tableau,  
Frontenac receiving the messenger of  
Sir William Phips at the Chateau St.  
Louis.

Eighth pageant—1759 and 1760, 13th  
tableau. Grand final scenes. Mont-  
calm and Levis, Wolfe and Murray,  
with their respective regiments repre-  
sented in a parade of honor; marching  
and counter-marching on the plains.

General salute by the troops, answered  
by the guns of the warships. Grouping  
of all the historical characters of the  
procession and tableaux.

Would-Honor William Pitt.

The London Times, referring cordially  
to the appeal in connection with the  
Quebec Tercentenary, points out, "One  
name has been barely mentioned, either  
by the organizers in Canada or by the  
committee in London, and that is a  
name in some ways the most glorious  
and most important of all. Great as is  
our debt to Wolfe, Saunders, Murray  
and Amherst for the conquest of Cana-  
da, it must not be forgotten that the  
man who alone planned it all, who  
chose these men and inspired them  
with his own high courage, to the sense  
of England's glory, was the great mi-  
nister who shattered his health in the  
stupendous task. This anniversary is  
greater for Pitt's birth, and it certainly  
is not untrue that it should be signal-  
ized by the associating his name promi-  
nently with the festivities in that part  
of the Empire which we owe to him at  
least as much as any single man."

**COMMON SPRING DISEASE.**

The prevalence of catarrh in the  
springtime is readily accounted for by  
rapid weather changes—sunny today—  
rainy to-morrow—hard frost day after.

The wise person protects his constitu-  
tion from the inroads of catarrh by  
inhaling "Catarrhoxone." This purely  
vegetable remedy destroys all the  
germs in the air passages, treats over  
a thousand square feet of mucous sur-  
face at one breath, and is deeper than  
any other known remedy can penetrate.

**Cure Guaranteed.**

Those who use Catarrhoxone for any  
affliction of the throat, nose or lungs,  
such as Catarrh, Asthma, Bronchitis  
or Hoarseness are guaranteed a per-  
manent lasting cure. If suffering, don't  
delay, get Catarrhoxone to-day; it will  
do for you what it did for Mrs. Birdie  
E. Secord, well-known in Richmond,  
where she has lived for five years.

**A Young Life Saved.**

"About two years ago I caught a  
severe cold and unfortunately didn't  
do much for it. It developed into  
chronic condition and very soon I had  
catarrh. I took different kinds of medi-  
cines but none of them did me much  
good. I coughed continuously, had  
soreness in my throat and chest and  
a pain over the eyes. I was afraid my  
lungs were affected, and got Catarrh-  
oxone. It gave me relief at once and  
completely cured that awful disease  
that was hanging over me like a night-  
mare. Since using Catarrhoxone I have  
kept perfectly well."

**MAYO POISON MYSTERY.**

Wife of Dead Man Deported From  
New York Will Be Arrested  
in Ireland.

New York, May 4.—Margaret Clara,  
the young Irishwoman who was de-  
tained by the immigration authorities  
upon her arrival here on the Campania  
on advice from the head of the Royal  
Irish Constabulary, which stated that  
she might have information concern-  
ing the home in Clonmore, County Mayo,  
was on Saturday deported on the Car-  
mania, of the Cunard line, Clara died  
from poison.

On the Carmania docks at Queens-  
town Mrs. Clara will be arrested by  
the Irish police. With Mrs. Clara was  
a brother, who is a Brooklyn motor-  
man. He said that he would see his  
sister through her present difficulty.

**"BUCKET SHOP" TEST CASE.**

Washington, D. C., May 4.—Percy Wade,  
recently convicted of violating the gen-  
eral laws of the District of Columbia by  
conducting a "bucket shop," was to-day  
sentenced by Justice Barnard in the  
criminal court to serve thirty days in  
jail. Mr. Wade took an appeal and was  
released on \$500 bail. Wade's case was  
regarded as a test under the district code.

**SUDDEN DEATH.**  
(Special to the Times).

Montreal, May 4.—Max Herger, one  
of the best known book canvassers in  
Canada, died suddenly at St. John, N. B.  
He leaves five children, two of whom  
(sons) live in Vancouver.

**DAMAGES BY HIGH WATER.**

Ogdensburg, N. Y., May 4.—Damage  
to the Thousand Island property by  
high water in the St. Lawrence river is  
estimated at between \$200,000 and \$300,-  
000.

**THE MYSTERIOUS  
SIGNATURE**  
BY J. LUDLUM LEE.  
(Copyrighted, 1905, by Associated  
Literary Press).

"The modern bungalow is a delu-  
sion and a snare."

"Suburbanites are an unneighborly,  
churlish lot."

Thus did Harriet and Pierce Elkins  
respectively sum up their first month  
at Meadow Manor, where, on the advice  
of old family friends, Mr. and Mrs. Sam  
Rogers, they had taken a picturesque  
bungalow for the season.

Harriet based her judgment on warp-  
ing doors and a shortage in books and  
other small domestic essentials, sum-  
ming up with the announcement that  
when women turned architects houses  
would be properly planned.

Her brother founded his criticism on  
the fact that the young woman whom  
he had nominated as the Meadow  
Manor beauty had so far ignored his  
very existence. She boarded the 8.30  
train with him five days out of seven,  
and yet seemed to hold herself aloof,  
not only from him but all other mascu-  
line creatures.

She was a most competent young  
person and never gave him the least  
opportunity to do her a service. In his  
determination to make an opportunity  
for the young woman whom he had  
nominated as the Meadow Manor  
beauty, he had taken the 8.30 train  
with him five days out of seven, and  
yet seemed to hold herself aloof, not  
only from him but all other mascu-  
line creatures.

At last opportunity appeared on the  
horizon. Pierce had taken the 2.30  
train home in hopes of getting a turn  
on the links to counteract the depress-  
ing effects of falling stock, and there,  
walking briskly ahead of him under the  
arching trees of the quaint village was  
the inaccessible beauty. And in the dust  
at the right of her daintily uplifted  
skirt lay a handkerchief. Pierce El-  
kins darted forward.

"I beg your pardon, but I think you  
dropped this."

The girl glanced first at the man,  
then at the bit of cambric in his hand  
and smiled.

"But I did not drop it," she said, and  
in verification of the statement pulled  
her handkerchief from her sleeve.

Mumbling inaudible words of apology  
Pierce turned down the opposite street  
toward home. Even gold did not im-  
prove his mood, and the next morning  
at breakfast his mood had not changed.

"Will you have two lumps?" asked  
Harriet as she was pouring the coffee.  
"Seventeen," growled Pierce.  
"Seventeen; all in one cup!" cried  
Harriet in amazement.

"I thought you asked me the day of  
the month," explained Pierce. "Two  
will do. The fact is, Sir, I did not sleep  
well last night and my brain is be-  
fuddled. That blamed roof leaked again  
and the rain came right in on my bed.  
I've decided not to go to town this  
morning but instead I'm going round  
to see our landlord and tell him what  
I think of him."

"The roof over the kitchen leaks,  
too," said Harriet plaintively. "You  
might mention that also."

"What's the beast's name?" asked  
Pierce.

"I really don't know," Harriet an-  
swered. "The bills come in signed M.  
M. per Hock & Hock."

"I'll not bother Hock & Hock,  
for they are like all agents," said  
Pierce. "I want the man higher up—the  
owner himself, M. M." he mused. "I  
bet his name is Mike Murphy, and I'll  
also wager that I'll rouse his Irish be-  
fore I get through with him."

"He lives in the little white bungal-  
ow on Maple avenue; Mr. Hock point-  
ed it out to me," directed Harriet as her  
brother started on his mission.

Pierce soon found the bungalow and  
rang the bell. He waited a moment and  
then rang again. He was in no mood  
to wait. From the hall inside a voice  
called: "Coming, coming."

And she came! The beauty!  
Pierce gasped. He had evidently made  
another mistake.

"I am looking for our missing land-  
lord," he explained. "I really don't  
know his name—some Irish contractor,  
I'll bet, ashamed to sign his full name."  
"Sit down on the porch, won't you,  
Mr.—" She hesitated. The beauty  
would make no mistakes.

"Elkins is my name—Pierce Elkins—  
and I fear I have made a mistake. My  
sister and I live in the little red cottage  
on New street. I'm searching for our  
landlord—name unknown, but methods  
atrocious. Really Miss—Miss—" Now  
Pierce hesitated.

"Markwell," she added.  
"This landlord signs his receipts 'M.  
M.' and I'm after his blood," finished  
Elkins.

"Won't you sit down?" again suggest-  
ed Miss Markwell and she deftly turned  
the conversation into more agreeable  
channels. The landlord was forgotten.

"I wonder if your sister would like  
to know me," said the beauty finally.  
"I know it is my place to call—but I  
rather hesitated—well for several rea-  
sons."

"Oh, I do wish you would call on Har-  
riet. She's a brick all right, and as some-  
times as a stray cat. No one has called  
yet."

"Well, I'll come over this afternoon  
while you are on the links," said Miss  
Markwell with some emphasis about  
the links.

But when Miss Markwell called that  
afternoon it was Pierce who answered  
the bell.

"You see I've such a fearful cold from  
that leaking roof," he explained, "that  
I thought I better stay home and nurse  
it."

Miss Markwell bit her lip.  
"I do hope, Miss Elkins," she said,  
"that I may be allowed to see this  
much-talked-of roof while I am here.  
The fact is," she continued with rather  
hailing speech—"the fact is, oh, bother—  
I'm your landlord."

Pierce took a firm grip on the table  
to keep from losing his balance. Neither  
he nor Harriet spoke a word. The beauty  
was forced to cover the pause.

"I'm the Terrible Turk, I'm 'Mike  
Murphy' alias Muriel Markwell, alias  
M. M." She seemed quite relieved  
that the awful news was out.

"Well, I'll be hanged!" This form  
Pierce.

"Who would think it?" This form  
Harriet.

"You see, I built these four houses  
as an investment with some money  
that father left me," explained "M. M."  
"And now, Mr. Elkins, if you will come

**TENDERS.**

TENDERS addressed to the undersigned  
at OUBA, in seal, envelopes and  
marked on the envelopes "Tender for New  
Crafter for British Columbia," will be  
received up to the

**FIRST DAY OF MAY NEXT.**

for the construction of a twin screw steel  
cruiser for Fisheries Protection Service  
in British Columbia waters, of the follow-  
ing leading dimensions, namely, length  
over all 225 feet, breadth of beam moulded  
32 feet, and depth from top of keel  
plate to top of beams at side 10 feet, and  
to be delivered at Victoria, B. C.

Plans and specifications of this steamer  
can be seen at the Department of Marine  
and Fisheries, Ottawa, at the offices of  
the Collectors of Customs at Toronto,  
Hamilton, Collingwood, Midland, Vanco-  
uver, and Sydney, N. S., and at the  
agencies of the Department of Marine  
and Fisheries at Montreal, Quebec, St.  
John, N. B., Halifax, N. S., and Charl-  
lottetown, P. E. I.

The same plans and specifications can  
be procured by application from the De-  
partment of Marine and Fisheries up to  
the First Day of May next and at the  
Agencies of the Department of Marine  
and Fisheries, Victoria, B. C.

Each tender must be accompanied by an  
accepted bank cheque equal to 10 per  
cent. of the whole amount of the tender,  
which cheque will be forfeited if the per-  
son sending the tender declines to  
enter into the contract with the Depart-  
ment or fails to complete the steamer.  
Tenders on letter paper will be consid-  
ered.

The Department does not bind itself to  
accept the lowest or any tender.  
Newspapers copying this advertisement  
without authority from the Department  
will not be paid.

**F. GOURDEAU,**  
Deputy Minister of Marine and Fisheries,  
Ottawa, Canada, 14th March, 1906.

FOR SALE BY

## PETER McQUADE & SON

1214 Wharf Street, Victoria, B. C.

seeks some improvements to the roads  
 in the vicinity of Smith's hill on ac-  
 count of the heavy hauling there will be.  
 He also recommended the laying of a  
 four-inch water pipe on Bank street,  
 between Oak Bay avenue and Leighton  
 road.

The report was laid on the table and  
 the portion of it dealing with the ap-  
 pointment of a foreman considered at  
 a secret session of the council held  
 after 11 o'clock.  
 A request from John Nelson on be-  
 half of the Tourist Association for \$1-  
 500 on account of the year's grant to  
 enable that body to go ahead with  
 their work was referred to the finance  
 committee.

### Two Resignations.

W. H. Keatinge wrote, tendering his  
 resignation as clerk of the police court,  
 as he found the duties too onerous un-  
 der existing conditions.  
 On motion of Ald. Mable the resigna-  
 tion was accepted and Mr. Keatinge  
 will be thanked for his past services.

Later on in the evening Mayor Hall  
 asked what they would do in the mat-  
 ter of appointing a successor. There  
 was a first class man filling the position  
 at present.

Ald. Fullerton said the council had  
 better call for applications for the po-  
 sition.  
 Ald. Mable bore testimony to the mat-  
 ter of the present temporary  
 incumbent of the position but felt  
 that under the rules of the council they  
 were forced to call for applications.  
 This will, therefore, be done.

Miss Gladys M. Wake wrote, resign-  
 ing her position as first assistant li-  
 brarian, and Miss Stewart, second as-  
 sistant, applied for promotion to the  
 vacancy. Miss Wake's resignation  
 was accepted with regret and Miss  
 Stewart advanced to her position, and  
 applications will be called for to fill  
 the vacancy caused by this promotion.

### Barn Is All Right.

The building inspector reported hav-  
 ing looked into the complaint of T. M.  
 Sturges regarding a barn on St. Law-  
 rence street. The barn, he had found,  
 had been erected years ago and recently  
 eight feet of it on the adjoining lot.  
 Under the by-laws he could do nothing  
 in the matter as they applied only to  
 new stables and barns. He had found  
 that there was only one horse in the  
 barn in question and there was that  
 in connection with it that could  
 be classed as objectionable.

The letter was received and filed and  
 a copy of it ordered to be sent to Mr.  
 Sturges.  
 City Carpenter Appointed.

Applications for the position of city  
 carpenter rendered vacant by the ac-  
 cidental death of the late William  
 Scott were then opened. There were  
 sixteen of them, the names of the ap-  
 plicants being as follows: F. Allatt,  
 W. Askey, C. O. E. Brown, W. H.  
 Cox, Richard H. Duce, J. V. Griffith,  
 W. B. Gordon, A. Jewsbury, W. A.  
 Long, Sidney Pritchard, John Rot-  
 cliffe, John Percy Smith, Walter H.  
 Smith, C. R. Thomson, G. H. William-  
 son, and F. Taylor. The first ballot  
 stood: Cox, 3; Taylor, 3; Allatt, 1;  
 Gordon, 1; John Percy Smith, 1; Wal-  
 ter H. Smith, 1. The second gave the  
 position to Taylor, the vote standing:  
 Taylor, 7; Cox, 2, and 1 spoiled ballot.

Mr. Taylor has been a resident of  
 Victoria for about 30 years, and is at  
 present employed at Sayward's mill.  
 He will commence his new duties at  
 once. The salary of the position is  
 \$80 per month.

### New Market Superintendent.

The applications for the position of  
 market superintendent were next  
 taken up and it required no less than  
 ten ballots to decide who should get  
 the position which eventually went to  
 William Dalby by two votes after he  
 and C. R. Thomson had tied seven  
 times. Almost an hour was spent in  
 this balloting.

The names of the applicants, 13 in  
 number, were as follows: John S.  
 Askey, E. A. Austin, W. A. Burt, Wil-  
 liam Dalby, Thomas Gelfinger, Richard  
 J. Hamilton, E. E. Johnston, Arthur  
 E. Jones, J. Lockley Jones, J. Lund,  
 Charles Mallandaine, G. R. Orton, G.  
 H. Palmer, Herbert Phipps, Sidney

Smith, James Townley, C. R. Thom-  
 son, G. W. Woollett.  
 On the first ballot Mr. Dalby got  
 three votes, Mr. Thomson three, and  
 Messrs. Woollett, Phipps, Johnston and  
 Gelfinger one each.

On the second Mr. Dalby got five, Mr.  
 Thomson three, Mr. Palmer one, and  
 there was a spoiled ballot. For the  
 next seven votes Messrs. Dalby and  
 Thomson tied with five each. On the  
 tenth ballot someone switched from Mr.  
 Thomson to Mr. Dalby, giving the po-  
 sition to the latter by six votes to four.

The balloting gave rise to considerable  
 good-natured chaff amongst the alder-  
 men. After several attempts to break the  
 tie, Ald. Gleason moved, seconded by Ald.  
 Norman, that the settlement of the mat-  
 ter be deferred until Friday night.

Mayor Hall replied that it had to be  
 settled in open court at this sitting.  
 Ald. Henderson suggested that the  
 council draw lots to see who should leave  
 the chamber until the vote was over.

No one seemed anxious to lose his  
 chance to vote and the suggestion fell  
 fruitless to the ground.  
 Ald. Cameron remarked that if they had  
 finished at 11 o'clock the balloting  
 would have been continued at the next  
 meeting. What was the matter, he asked,  
 with considering it already 11 o'clock.  
 This did not appeal to His Worship.

After the eighth ballot the Mayor an-  
 nounced that it was impossible to sus-  
 pend the rules, and the matter would have  
 to be settled.

Ald. Cameron—"Cannot a man go  
 home?"  
 When someone switched on the tenth  
 ballot an audible sigh of relief went up  
 from the council.

Ald. Gleason's food inspector's appoint-  
 ment by-law was reconsidered, adopted  
 and finally passed, after which a resolu-  
 tion passed authorizing the clerk to ad-  
 vertise for applications for the position of  
 assistant health officer, subject to the  
 provisions of the by-law, the salary being  
 placed at \$80 per month.

Ald. Henderson's motion providing for  
 the grading, macadamizing and draining  
 of Vining street, between Belmont and  
 Stanley streets, and the laying of a  
 granolithic sidewalk on the north side of  
 Queen's avenue, between Quadra and  
 Blanchard streets, was passed.

Finance Committee.  
 The report of the finance committee re-  
 commending payments aggregating \$11-  
 99.45, and including \$4,323.75 for school  
 purposes, was adopted.

Streets, Bridges, Sewers.  
 The streets, bridges and sewers com-  
 mittee's report went through without be-  
 ing read. It was as follows:

Re communication of Messrs. Gray,  
 Hamilton, Donald and Johnson, desiring  
 to be informed when the work of improve-  
 ment on the street in Rockland Park will  
 be commenced. Recommended that the  
 writers be informed that the preliminary  
 work connected with this matter is well  
 advanced for the carrying out of same.

Recommended that the sum of \$133.84  
 be paid to Mr. Andrew Gray in final settle-  
 ment of his account against the corpora-  
 tion for installing the creosoting plant.  
 Recommended that the duties of the  
 superintendent of construction of streets,  
 bridges, sewers and sidewalks shall be  
 set out and defined in the report  
 attached hereto, and the work, of such  
 duties be forwarded to the city  
 engineer and the superintendent for their  
 guidance.

Re B. C. District Telegraph Co. and  
 application of Mr. Springer: Recommended  
 that before a by-law is introduced, con-  
 taining the concessions which Mr. Spring-  
 er desires to have renewed, the company  
 be called upon to prove its need, and  
 that it has been in continuous operation  
 since the date of the final passing of the  
 by-law known as the "District Telegraph  
 By-Law."

Re communication of Messrs. Pett-  
 e and Gregory offering for sale a patent dump  
 wagon, owned by the late James Wilson:  
 Recommended that this matter be referred  
 to the chairman of the committee, and  
 the city engineer with power to act.

Report Is Asked for.  
 Recommended that the city engineer be  
 requested to report to this committee up-  
 on applications already received for sewer  
 construction, and that the committee be  
 desired to be done, to the extent of \$25,000,  
 also to report upon works of local im-  
 provement for which by-laws have been  
 passed, and that he be requested to re-  
 port upon the carrying out of such work,  
 giving schedule showing (1) works now  
 under way, (2) works not yet started,  
 (3) works reported upon by by-laws not  
 yet passed, (4) works for which resolutions  
 have been passed, but no report yet made.

The above report on local improvement  
 works relative to the construction of sewer  
 sidewalks, curbs and boulevards, and to  
 the paving, grading and macadamizing of  
 streets. A report is also desired from the  
 city engineer upon the works of repairs  
 ordered by the council to be done to ma-  
 cadam roads, showing that work has been  
 done and what remains yet to be done.

Recommended that the sum of \$250 be  
 expended to improve Piquard street, be-  
 tween Douglas and Government streets.  
 Re communication of Chas. A. Glass,  
 calling attention to the condition of  
 Duchess street: Recommended that the  
 writer be informed that the council will  
 proceed to have this work carried out un-  
 der the local improvement plan, provided  
 a majority of the property owners inter-  
 ested will petition the council to that  
 effect.

Any expenditure contemplated in the  
 foregoing to be subject to favorable re-  
 port thereon by the finance committee,  
 and adoption of said report by the coun-  
 cil.

The duties of the superintendent of  
 streets, sewers, bridges and sidewalks  
 construction, as set out in the schedule  
 attached to the above report, will bring  
 him under the direction of the engineer,  
 and he shall have supervision of all works  
 of construction such as the grading and  
 macadamizing of streets, street paving,  
 the laying of plank and concrete side-  
 walks, sewer work and building and re-  
 newal of bridges. He shall have control  
 of the workmen employed on these works,  
 and to the proper disposal of all material,  
 and have charge of all the machinery used  
 on the above works and see that the streets

## A Half Dozen Worthy Tags

WHICH REPRESENT VALUES NOT EQUALLED ELSEWHERE

Yes, here are a half-dozen tags that represent excellent values. Just see the ar-  
 ticles to which they are attached and you'll see values not surpassed elsewhere  
 —values we think are just a little better than any other establishment offers.

<b>WEILER BROS.</b> <b>VICTORIA B.C.</b> <b>Silver Cake Basket</b> An exceptionally taking de- sign in a silver plated cake basket, this. A basket of quite liberal proportions, de- signed and made by master workmen in the famous "Meriden" works. Just see what excellent value this is. Price— <b>\$6.00</b>	<b>WEILER BROS.</b> <b>VICTORIA B.C.</b> <b>Dinner Service</b> A dainty set in semi-por- celain with a neat and at- tractive decoration in either green or pink. This set con- tains 98 pieces and at the price asked is excellent value. Let us show you this set. First floor. Price— <b>\$9.00</b>	<b>WEILER BROS.</b> <b>VICTORIA B.C.</b> <b>Solid Oak Extension Table</b> We are offering some fine values in low-priced Oak Ex- tension Tables. The table at- tached to this tag is one of many excellent offerings. This table has a polished top 40 x 40 in. and extends to 8 feet. The design is attract- ive and workmanship the best. Price— <b>\$12.00</b>
<b>WEILER BROS.</b> <b>VICTORIA B.C.</b> <b>Crossley Diamond Tapestry Square</b> In Carpet Squares we offer an unusually wide choice this season but one of the most popular of our offerings is this Diamond Tapestry from the looms of Crossley. ## HUSBAND MUST BE ON GOOD BEHAVIOR

Magistrate Hears Family Troubles in the Provincial Court.

In the provincial police court held yesterday afternoon in the city hall, before Magistrate Jay, Annie Hene, charged her husband John Hene with assault on Friday last. She said in her evidence that her husband had struck her and accused her of infidelity with the lodger.

Charles Hene, a son of the parties, gave evidence that his father was a little strange in his manner at times. He thought him a little troubled in his mind. "I have gone into the matter to find out what is the matter with him, and I have discovered that at the time of high tides and new moons father is troubled," said the son. "He testified that his father had struck his mother and accused her of infidelity with the lodger."

John Hene, the accused, elected to make a statement and said there was not any insanity about him, but that he suffers from pains in his back. He had noticed certain actions on the part of his wife, and had not received the same cheery smile as of old on returning home at night. The lodger had his meal last Thursday night and sat on the corner of the bath and his wife went and sat in the corner with him looking at him and not taking a bit of notice of her husband. "I truly admit I treated her as she said on Thursday night, but I went home and got back looks. They did not ask me how I was. We were friendly after tea and were out in the garden and Annie said she would rather have me to nurse her than anyone in the world."

"So I did," interjected Mrs. Hene, "but that is when you are all right." The father continuing his statement, said: "I then went in and lay on the bath to get warm. Mother brought in the clothes and folded them before the lodger. I was suspicious. I watched them. Then she told the children to put wood on the fire. I thought I would go to bed, and the lodger was speaking to mother, but as soon as I looked up he had his face in his hands on the table as if asleep."

Hene was continuing his statement in a nervous manner when the magistrate brought him up to time and bound him over in the sum of \$100 to be of good behaviour for six months.

## HERBERT CUTHBERT AND TOURIST WORK

Former Secretary Will Continue to Devote Part of His Time to Association.

Herbert Cuthbert has been re-appointed secretary of the Tourist Association in this city, to the duties of which he will be expected to devote a part of his time. After going thoroughly into the matter the executive committee of the association decided that there were not funds sufficient to pay a good man for the whole of his time. Mr. Cuthbert is, therefore, to be retained to prepare the necessary literature and to give his spare time to the interests of the association.

There were a number of applicants for the position, but it was felt that by getting Mr. Cuthbert to undertake the work there would be no delay and no break in the continuity of the work, which was practically initiated by him.

There were present at the meeting: Mayor Hall, who presided, A. W. McCurdy, J. Nelson, J. L. Coast, J. Herbert Kent, W. B. Williams, C. Peabody and G. Kowall.

A committee of the executive later waited upon the city council, when the state of affairs was laid before them. J. Lawson, jr., was one of the speakers who, in plain, every day phrases, made the matter so clear that the aldermen were visibly impressed. His Worship the Mayor and A. W. McCurdy also addressed the fathers.
